CSCD03—Social Impact of Information Technology, Winter 2021

Debate: Global Internet

Suggested Debate Topics

- Canada should adopt internet voting
- The internet is a fundamental human right
- Section 230 should be repealed
- The United States has too much control over the internet
- Canada should take a more active role in internet censorship

Remember that your ultimate goal is to get a class discussion going. So you'll want to present both sides of the argument in a persuasive fashion and leave plenty of room for debate. The information presentations will set a lot of the background information for you, so make sure you're aware of what they are/aren't covering.
