If you are experiencing difficulty connecting, you may need to verify yourUTORid account credentials. Please visit this website: https://www.utorid.utoronto.ca/cgi-bin/utorid/verify.pl If everything is ok, you should see the message: “Your UTORid and password have been checked and should work.”

AUTOMATIC SETUP

1. Go to **Settings** and choose **Wi-Fi**. If it is turned off, turn it **ON**. Tap UofT.

2. On the next screen, choose the following settings (below). Click **Connect** when finished.

3. If you are not able to connect properly, turn your Wi-Fi off and try again.

MANUAL SETUP

If you are unable to connect automatically, you can setup a manual connection using the following settings:

- **Network Format**: 802.1.X
- **Network Security**: WPA2 Enterprise
- **Authentication**: PEAP with MSCHAPv2
- **Validation Server**: radius.wireless.utoronto.ca
- **Certificate**: AddTrust External CA Root
- **Login Name**: your UTORid
- **Password**: your UTORid password
