If you are experiencing difficulty connecting, you may need to verify your UTORid account credentials. Please visit this website: https://www.utorid.utoronto.ca/cgi-bin/utorid/verify.pl If everything is ok, you should see the message: “Your UTORid and password have been checked and should work.”

**AUTOMATIC SETUP**

1. Click on the **wireless icon** on the right side of the desktop to view available wireless networks. Select UofT and click **Connect**.

2. You will be prompted for your username and password. Enter your UTORid and password as credentials. When finished click on **OK**.

3. You may receive the below message when attempting to connect to UofT. Click **Connect** to proceed.

**MANUAL SETUP**

If you are unable to connect automatically, you can setup a manual connection using the following settings:

- **Network Format**: 802.1X
- **Network Security**: WPA2 Enterprise
- **Authentication**: PEAP with MSCHAPv2
- **Validation Server**: radius.wireless.utoronto.ca
- **Certificate**: AddTrust External CA Root
- **Login Name**: your UTORid
- **Password**: your UTORid password
