

Office of the Chair and Graduate Chair

DPES 2010-19 Search for Part Time Environmental Science Lecturer

From: William A. Gough, Chair and Graduate Chair, DPES

Date: August 23, 2010

When I agreed to become Chair of DPES, the Dean agreed to provide funding for a part time lecturer to cover my teaching for three years. I now have formal approval to advertise for such a position. A Part Time Lecturer is a teaching position that does not exceed 75% of full time employment. A 75% teaching load for a Lecturer in Environmental Science is 2.5 full course equivalents (five half courses) plus service. As per University Policy the initial appointment must be one year in duration, and may be renewed annually.

The hiring process for Part Time Lecturer is considerably less formal than other academic appointments. Professors George Arhonditsis and Carl Mitchell have agreed to serve with me on the selection committee. Candidate visits are not required but the committee may choose to go this route depending on the candidate pool. I anticipate a January 1, 2011 start date.

We will begin reviewing applications after November 1. I have appended the job description to this memo. This will be posted on the departmental Website and will be posted on CAGLIST, a list server for Canadian Geographers. Please feel free to disseminate this announcement appropriately.

Part Time Lecturer Position in Environmental Science

The Department of Physical and Environmental Sciences, University of Toronto Scarborough, seeks to fill a part time (75%) lecturer position, commencing January 1 2011 and ending December 31, 2011 with the possibility of renewal.

Applicants should have teaching experience in climatology, climate change and climate change impact assessment and must be able to teach courses in these areas. The successful candidate will teach two and half full course equivalents (75% teaching load) and should have a Ph.D. in Climatology or a closely related field, or be close to completion. Candidates must have a record of excellent quality teaching. Salary will be commensurate with experience and qualifications.

Additional information on the Department of Physical and Environmental Sciences can be obtained at: <http://www.utsc.utoronto.ca/~physsci>

This competition is open until the position is filled. The search committee will begin reviewing applications on November 1, 2010. Applications should include a covering letter, curriculum vitae, and teaching statement and be submitted electronically to dpeschair@utsc.utoronto.ca. Applicants should ask three referees to submit a letter of recommendation electronically to dpeschair@utsc.utoronto.ca.

The University of Toronto is fully committed to academic excellence and welcomes applications from all qualified individuals. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.
