University of Toronto Scarborough  
Department of Physical and Environmental Sciences  
EESC13H3 F - Environmental Impact Assessment and Auditing  
2013  Outline

Professor: Mandy Meriano  
Office: SW627C  Telephone: 416-208-2775  
Office hours: Thursday 11 am - 1 pm  
Email: mmeriano@utsc.utoronto.ca

Lecture time: Monday 11 am to 1pm  
Location: MW120

General Information about Presenting your Assignment  
Student Services  

The course textbook is available from the UTSC Bookstore.

Objectives: Environmental Impact Assessment (EIA) has emerged as both an instrument of evaluation and as an important decision-making system. EIA is an integral part of environmental management in environmental policy at regional, national and international levels. While EIA ideally incorporates environmental consideration into planning and development processes, it is very much embedded within the growth ethic—it is not about preventing development. Ideally, EIA helps development occur within an environmentally responsive context. It informs decision-makers about the consequences of development decisions and identifies the likely or known impacts of development. However, even undertaking an EIA cannot guarantee that bad development decisions will not be made, that projects will perform as anticipated, or that impact mitigation will be done and will be effective.

This course examines EIA from a critical perspective as a strategic, comprehensive, and pro-active process employed to integrate the ecological and social aspects of development into planning and environmental/resource management processes.

The course objectives are meant to provide a critical overview of EIA processes, a guide to normative and applied EIA practice, and to impart a
fundamental understanding of how EIA works (or, sometimes, does not work) in the Canadian context.

EIA methods, approaches, regulation, and legislation are also discussed. Case studies from jurisdictions in Canada are used to illustrate themes and issues, along with an ongoing reference to practice in our province and at the federal level.

**Learning Objectives:** By the end of the course students will have developed an understanding of EIA processes and stages, EIA terminology, Canadian EIA practice and policy, and will have developed specific knowledge of the Canadian Federal and Ontario EIA systems. Students should be able to critique and analyse the relative performance and influence of different EIA systems, and understand the role of EIA in planning and environment/resource management.

**Evaluation:** A major research paper on EIA methods/approaches: value 30%; a midterm exam: value 20% (short answer and multiple choice); a final exam (format will be discussed later in the term): value 30%; hearing exercise: value 10%; and class participation: value 10%.

The midterm is based on material covered in lectures, guest lectures and readings up to and including the class before the midterm exam. The midterm will include multiple choice and short answer.

The final exam will be based on all term material (including readings and all lectures). The format of the final exam will be discussed later in the term.

**Tentative Lectures and Readings:** Readings are from your course textbook: Hanna (2009). There will be additional assigned readings that will be distributed or put on reserve at the library as they become available.

*Students should note that topics may span more than one lecture period.*

**September 09**
An overview of the course, expectations, and objectives
A quick look at the textbook

Introduction to EIA
The importance of EIA in Canadian environment and resource management

Key themes and definitions
EIA as a planning tool
Ch. 1 Kevin Hanna

The ideal influence and attributes of EIA
Rational planning and EIA
September 16
History and background of impact assessment in Canada
Ch. 2 Robert Gibson and Kevin Hanna

Formative events in Canadian EIA
Sustainability
Efficacy
The state of EIA influence

September 23
Typical (ideal) stages in the EIA process, what happens at each stage?
Ch 1. Kevin Hanna

Key terms
What happens at each stage in the EIA process?
How does the generic model compare to our provincial and federal processes?
Different types of impact assessment (strategic, cumulative, social and economic)

Measuring and identifying impacts, techniques, and methods
Ch. 3 Douglas Baker and Eric Rapaport

Baseline conditions, environmental attributes
How do we identify impacts?
Significance
Strengths and weaknesses to techniques and tools

September 30
Guest Lecture: Professor Thembela Kepe
UTSC - Geography, Department of Social Sciences

Topic: "Where land issues meet EIAs"

Readings:

October 07
The challenge of strategic assessment
Ch. 6 Bram Noble and Jill Harriman-Gunn

How do we evaluate plans and policies?
Method challenges
Techniques of strategic assessment
The state of strategic assessment in Canada

October 14
Thanksgiving Day - University closed

October 21
Midterm Test (11am-1pm in class)

October 28
Guest Lecture: Mr. Todd Hall
    Environmental Auditor, Ontario Power Generation

    Topic: Environmental Auditing

    Readings: TBA

    Due: Major Assignment at the start of class

November 04
The Canadian federal EIA process: What the Canadian Environmental Assessment Act covers and how it works
Ch 14 Jamie Herring

    History of the CEAAct
    Recent changes and infrastructure spending, weakness, or needed streamlining
    An overview of the federal process
    When is an assessment mandatory?
    Types of assessment, screening and beyond

November 11
Assessing social impacts, basic themes, and methods: a case study of practice in Canada
Ch. 7. Ron Pushchak and Ann Marie Farrugia-Uhalde

    What are social impacts?
    How do we measure and value them?
    Case study and examples

    Assessing cumulative impacts: A case study from Western Canada
    Ch. 8 Roger Creasey and William Ross

    Defining cumulative impacts
    Understanding the estimation and measurement of cumulative
    Cumulative EIA example
November 18
Guest Lecture: Mr. Graham Rempe
Solicitor, City of Toronto Legal Services

**Topic:** Environmental Assessment Law (Ontario)

**Readings:**

A link to the act itself can be found at: http://www.e-laws.gov.on.ca/html/statutes/english/elaws_statutes_90e18_e.htm
Although this is not essential for the lecture you may want to have a quick scan, especially sections 2, 5-7 and 13-14. Also not essential.

Public participation, a key part of successful and meaningful EIA
Ch. 4 A. John Sinclair and Alan Diduck
The importance of participation
How should participation affect EIA?
Participation techniques and examples

What is a Hearing? Assessment boards and hearing process
Ch. 5 Len Gertler
How a hearing works (provincial and federal examples)
The power and function of boards and tribunals

Due: Hearing Summaries at the start of class

November 25
EIA as resource planning. How EIA can function as a central planning tool: The example of Nunavut.
Ch. 13. J.J. Rusk, S.G.R. Granchincho, and R.W. Barry

EIA as the resource planning mechanism
A unique EIA system
The role of First Nations and traditional knowledge

Venues and setting
Harmonization
Screening, and that’s all?
EIA as a 'green stamp of approval'?
Students will be divided into three groups (one proponent and two opponent groups). Each group will have to prepare a one to two page summary available to everyone by November 18th (two weeks ahead of the hearing), and make a 5-10 minutes presentation at the hearing on December 2nd.

Each group will have to discuss and defend their arguments during questioning from Counsel, Tribunal (me), and public (the class).

**Major Assignment:**

*Critical Review of Canadian EIA Processes (Value 30 marks)*

**Due: October 28**

Prepare a critical paper that describes and critiques the Environmental Impact Assessment systems in one Canadian jurisdiction. You may choose any province (other than our province of Ontario) or the Canadian federal EIA legislation. Refer to your course readings and other general and theoretical materials to develop a critique of the EIA approach used in your chosen province.

Consider elements such as the scope of EIA application, adherence to the ideal of effective EIA as indicated in the literature (and your course lectures), the methods used, and the regulatory framework (legislation or legal context) used to implement EIA. Does EIA apply to both private and public sector undertakings? Is policy and program development subject to EIA? What do you think is successful or positive about the jurisdiction's approach to EIA, and what is not? Your paper must include a critical/analytical component as well as descriptive elements.

You must demonstrate that you are familiar with the current state of EIA in your chosen jurisdictions; for example, are there any proposals to amend the EA legislation or local/regional debates about aspects of the EA process? Are there any particularly important EA reviews underway or recently completed?

Your paper should be no longer than 12 pages, double-spaced, single sided excluding title page, reference list, and any figures or tables you wish to include.

Do not use plastic covers or any form of binder.

Do not use a paper clip; just staple your paper.

Use the APA reference format.

There must be a minimum of 8 references used.
Present your paper in a research paper format.

The use of section headings is strongly suggested.

The use of internet material may be important to your work; however, such sources must be properly referenced.

**General Information about Presenting Your Assignment**

**Grading:** Evaluation of assignments takes into account organization and structure, style and presentation, as well as research and content. Writing quality and content are both considered in grading. Your work will be graded by Dr. Meriano. If you have a question or problem with the grade you receive, consult the professor. Your grade may be revised up or down based on the review.

Your assignments must have a plain title page with the title of your assignment, your name, course number, the date, your student number, and the instructor's name. Staple your assignment in the upper left corner; do not use folders, cover slips, or binders.

**Handing In Assignments:** You are responsible for making sure that your Professor receives your work. Students who mail assignments in, place work on the floor outside an office, or slip assignments under a door, do so at their own risk.

**Late assignments:** The late penalty is assessed as follows:
1 day 10%, 2 day 20%, 3 day 30%, 4 day 40%, 5 day 50%, 6 day and after 100%

Please make sure to submit your assignments before the due time to avoid late penalty.

**Plagiarism:** Assignments are checked for plagiarism. Please consult the University Calendar for a discussion and outline of the policy on plagiarism and academic integrity (also see proceeding section below). The sanctions can be severe. If, after reviewing the University policy, you are uncertain about what constitutes plagiarism, talk to your course instructor.

**Extensions:** Requests for an extension on an assignment must be tendered in writing in advance of the due date. In instances of illness, a supporting medical certificate must be completed by a physician at the University Student Health Centre. Other notes are not acceptable. Extensions are granted at the discretion of the Professor (and the TAs), and may be granted for other significant emergencies.

**Academic Integrity:** Academic integrity is essential to the pursuit of learning and scholarship in a university, and to ensuring that a degree from the University of
Toronto is a strong signal of each student’s individual academic achievement. As a result, the University treats cases of cheating and plagiarism very seriously. The University of Toronto’s Code of Behaviour on Academic Matters (http://www.governingcouncil.utoronto.ca/policies/behaveac.htm) outlines the behaviours that constitute academic dishonesty and the processes for addressing academic offences. Potential offences include, but are not limited to:

In papers and assignments:

- Using someone else’s ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course without the permission of the instructor.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment.

On tests and exams:

- Using or possessing unauthorized aids.
- Looking at someone else’s answers during an exam or test.
- Misrepresenting your identity.

In academic work:

- Falsifying institutional documents or grades.
- Falsifying or altering any documentation required by the University, including (but not limited to) doctor’s notes.

All suspected cases of academic dishonesty will be investigated following procedures outlined in the Code of Behaviour on Academic Matters. If you have questions or concerns about what constitutes appropriate academic behaviour or appropriate research and citation methods, you are expected to seek out additional information on academic integrity from your instructor or from other institutional resources (see http://www.utoronto.ca/academicintegrity/).

Lost or misplaced assignments: It is your responsibility to keep a photocopy of your work, and to make more than one electronic copy of your work. Excuses are not accepted in the case of lost or misplaced work.

References: You are required to use the APA style for referencing. The use of footnotes and endnotes for referencing is not acceptable. If a point is worth making, incorporate it into the text; if you believe a point should be explored outside the main text, use a footnote—do not use endnotes.

Students may be required to submit their written work in electronic form and have it checked for plagiarism.
Please consult the University Calendar for information about grade distribution and academic conduct.

**Accessibility:**
Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodations, please feel free to approach me and/or the AccessAbility Services Office as soon as possible. I will work with you and AccessAbility Services to ensure you can achieve your learning goals in this course. Enquiries are confidential. The UTSC AccessAbility Services staff (located in S302) are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations (416) 287-7560 or ability@utsc.utoronto.ca.

Students are encouraged to review the Calendar for information regarding all services available on campus.
