CHMD16H3: Environmental & Analytical Chemistry
-Winter Term 2018-

Lecture: Mondays 12-4pm in Room BV 359 (Jan 8th – Feb 12th, 2018)
Laboratory: Mondays 12-4pm in Room EV 216 (Feb 26th – April 2nd 2018)
Instructor: Professor M.J. Simpson
Office: Room SY322
Email: msimpson@utsc.utoronto.ca
Office Hours: by appointment

COURSE DESCRIPTION
Students will learn about analytical techniques used in environmental chemistry, including: gas and liquid chromatography, mass spectrometry, atomic absorption, and ultraviolet-visible spectroscopy. Environmental sampling and ecotoxicology will also be covered. Students will carry out laboratory analyses and receive hands-on training with analytical instrumentation commonly used in environmental chemistry.

PREREQUISITES
CHMB55H3 and CHMC11H3. All students must have the appropriate prerequisites for this course.

EXCLUSIONS CHMC16H3, CHM317H (St. George campus), CHM410H (St. George campus).

GRADE BREAKDOWN
- Midterm exam 30%
- Research Project & Presentation 30%
- Laboratory Reports (two reports in total) 40%

ASSIGNMENT PREPARATION & SUBMISSION
All course work including the Research Project and Laboratory Reports must be prepared using MS Office (or equivalent) software and submitted using Turnitin.com (see section on plagiarism). Students will also be required to submit hardcopies of their work to the course instructor or teaching assistant.

LATE WORK
Late assignments will not be accepted and assigned a grade of zero.

COURSE LECTURE NOTES & LECTURE ATTENDANCE
There is no required textbook for this course and lecture notes will cover all topics in detail. Lecture notes (as a pdf) will be posted on the UofT Portal (Blackboard). Examination material will include emphasized lecture material only (lecture material will be discussed in detail in class). Students should make every attempt to attend lectures regularly.
LIBRARY RESOURCES
The following textbooks (available online through the UofT library) are relevant to the course content:

PLAGIARISM
Normally, students will be required to submit their course essays and laboratory reports to Turnitin.com for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays and laboratory reports to be included as source documents in the Turnitin.com reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University’s use of the Turnitin.com service are described on the Turnitin.com web site.

University of Toronto Scarborough code of Behavior on Academic Matters states that "it shall be an offense for a student knowingly: to represent as one's own any idea or expression of an idea or work of another in any academic examination or term test or in connection with any other form of academic work, i.e., to commit plagiarism."

Students are expected to submit original work. Any form of plagiarism will not be tolerated. Students suspected of plagiarism will be reported based on University policy and code of behavior (please refer to the University Calendar for more details).

E-MAIL ENQUIRIES
E-mail is not an effective means for teaching or discussion of scholarly material. Students are encouraged to discuss topics in person with the instructor. Simple queries can be sent via email but questions about course content are best discussed in person.

ACCESSIBILITY NEEDS
The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact The UTSC Accessibility Services as soon as possible: http://www.utsc.utoronto.ca/~ability/

WRITING SUPPORT
The University of Toronto Scarborough Writing Centre (http://utsc.utoronto.ca/twc/) offers writing support to all students in several forms. Students are advised to take advantage of their programs for assistance with scientific writing.

| Monday, January 8<sup>th</sup> | - Course introduction and overview  
- Sampling and isolation of compounds for quantification and identification  
- Basics of analytical measurements and quantification |                                      |
| Monday, January 15<sup>th</sup> | - Gas chromatography & related analytical detectors                   |                                      |
| Monday, January 22<sup>nd</sup> | - Liquid chromatography & related analytical detectors                 |                                      |
| Monday, January 29<sup>th</sup> | - Metal analysis (atomic absorption and atomic emission)               |                                      |
| Monday, February 5<sup>th</sup> | MIDTERM EXAM (12-2pm)  
- Guest speakers (2-4pm) |                                      |
| Monday, February 12<sup>th</sup> | - Student Project Presentations (order of presentations to be determined) | Research project presentations in class |
| Monday, February 19<sup>th</sup> | Family day & reading week  
<em>No lecture</em> |                                      |
| Monday, February 26<sup>th</sup> | Group 1 – Analysis of PAHs in soil by GC  
Group 2 – Analysis of water by LC & IC |                                      |
| Monday, March 5<sup>th</sup> | Group 1 – Analysis of PAHs in soil by GC (continued)  
Group 2 – Analysis of water by LC & IC (continued) | Written project paper due at 12pm |
| Monday, March 12<sup>th</sup> | Group 1 – Analysis of PAHs in soil by GC (continued)  
Group 2 – Analysis of water by LC & IC (continued) |                                      |
| Monday, March 19<sup>th</sup> | Group 2 – Analysis of PAHs in soil by GC  
Group 1 – Analysis of water by LC & IC | Lab report due at 12pm               |
| Monday, March 26<sup>th</sup> | Group 2 – Analysis of PAHs in soil by GC (continued)  
Group 1 – Analysis of water by LC & IC (continued) |                                      |
| Monday, April 2<sup>nd</sup> | Group 2 – Analysis of PAHs in soil by GC (continued)  
Group 1 – Analysis of water by LC & IC (continued) |                                      |
| Friday, April 6<sup>th</sup> | <em>Last day for submission of term assignments</em>  
<em>No laboratory experiments</em> | Lab report due by 4pm                |
