Budget Vote

Nadia R. presents the CSS budget vote, highlighting some changes in the services fee there's a decrease with the athletics and reaction fee of \$6. This is due to increased enrolment, increased collaboration and resource sharing. The decrease in student fees doesn't mean cutting back or downscaling in any way. Programming has adapted hybrid models and will continue to increase student services online presence.

Desmond's Remarks

Desmond P. will be retiring and going on leave until the end of June and this is his last CSS meeting and budget vote meeting. Thankful for our students being part of this process, it's a big commitment and Desmond appreciates your involvement; to our staff that is also always supportive. Regardless of differences and point of views, UTSC has worked really well as partners and it is noticed by the rest of the university. SCSU handles transitions incredibly and learning about SCSU's priorities enables partnership and an important approach to leadership. It is often difficult to find a common ground but we are able to find a common direction. Desmond highlighted some achievements: Toronto Pan Am Sports Centre, the new residence centre, IC2 building which will house our student services hub. However, more important than buildings are the ways we have changed in services from very siloed services to a strongly collaborative enterprise which provide better services and more cost effective and far more integrative in

our planning, significant reorganizers for student services. A lot has been done in the last decade and there's a lot more to do, there is an exciting future ahead.

Sheila J. thanks Desmond for leading us through successes and big thank you for his work and leading our students.
