

Department of Biological Sciences
Winter Seminars, 2010
Fridays, noon-1PM, room SY205

January 15 John Peever
Department of Cell & Systems Biology, UT
"Unravelling mechanisms mediating REM sleep"
Host: Michelle Aarts (x7405)

January 29 Scott Gray-Owen
Department of Medical and Molecular Genetics, UT
"The pathogenic Neisseria: Dancing with Humans"
Host: Mauricio Terebiznik (x7655)

February 12 Elizabeth Edwards
Department of Chemical Engineering & Applied Chemistry, UT
"Metagenomics and bioremediation: from genomes to solutions"
Host: Dan Riggs (x7418)

February 26 Steve Short
Biology Department, UTM
"The molecular ecology of freshwater viruses"
Host: Marc Cadotte (x5105)

March 12 Amanda Moehring
Biology Department, University of Western Ontario
"Genetics of behaviour, speciation and reproductive isolation"
Host: Maydianne Andrade (x7425)

March 26 Lu-Yang Wang
Hospital for Sick Children
"Functional and morphological remodeling at a developing central synapse"
Host: Michelle Aarts (x7405)
