

StatCrunch® (www.statcrunch.com) is an online statistical software website that allows users to perform complex analyses, share data sets, and generate compelling reports of their data. StatCrunch has nearly 14,000 data sets available for students to analyze, covering almost any topic of interest. Interactive graphics help users understand statistical concepts and are available for export to enrich reports with visual representations of data. For a complete listing of StatCrunch's statistical capabilities, go to: <http://www.statcrunch.com/features.php>.
