

COMAP's 2009 Mathematical Modeling Contest

“Meritorious” placements by 2 UTSC teams

Congratulations to UTSC's two entries in this year's Mathematical Modeling Contest held in February. They both achieved the rank of **“Meritorious”**.

The contest does not give exact numerical placements; they divide the entries into 4 groups:

Outstanding Winners, Meritorious, Honorable Mention, & Others.

Our UTSC team was ranked "Honorable Mention" last year, and it's only the second time UTSC has ever had a team ranked “Meritorious”.

☆ Our teams, coached by Paul Selick, were:

1) Marcel Bao

Xiaocong Han

Mo Lu Shi

2) David Lehman

Audrey Wu

Fan Zhang
