Get Started Online Module 4
Student example and Demo video

Slide 1

Introduction slide

Slide 2

In this module, you will meet Joseph who was accepted into the Life sciences admission category. After exploring his options, he decided to study Human biology major and Political science major.

First, he's going to look up whether the programs are limited or unlimited. Then, he's going to look up the enrolment requirements, first year courses for his programs and decide which electives he will be taking. Once he has figured out which courses he will be taking, he will check to see if he was pre-enrolled in courses on ACORN. By using the course timetable he will be looking up when the courses are offered to create his schedule for his first and second semesters.

You can watch the video on the next slide to understand how she navigates the Registrar’s website, the calendar, and the timetable.

Slide 3

Watch the demo video. If you need the closed caption video, click on the link at the bottom of the slide.

Slide 4

Click on the links on this slide to open up the websites from the demo video.

Slide 5

This slide will show you how to enroll in courses on ACORN. You can log into ACORN with your UtorID which is same as your Join ID.

Slide 6

Thank you for watching the module. If you have any questions, you can email us at getstarted@utsc.utoronto.ca.

Have a great summer and we look forward to seeing you soon.
