

Crime Scene

A stupendous amount of jewelry was stolen. The criminals made their getaway with their loot in a car. Three well known criminals, A, B and C were brought in for questioning and it was established that:

- 1. No one other than A, B, C was involved in the robbery.**
- 2. C never pulls a job without using A (and perhaps other accomplices).**
- 3. B does not know how to drive.**

Is A innocent or guilty?
