- The majority of our programs are open and accessible to all as they are unlimited in enrollment
- We offer two joint programs with Centennial College: a Specialist program in Journalism and a Major program in New Media Studies
- Theatre and Performance Studies offers an option for students to combine their undergraduate degree with a Masters of Teaching at OISE
- Our Arts Management program is unique in that students are required to complete 2-3 arts industry related field placements as part of their program requirements
- We have specialized spaces for students in Music & Culture, Theatre & Performance Studies, and Studio Art where they can practice, perform, and create.
