Specialist, Major, Minor

What is Sociology?

Sociology is a Social Science that asks big questions and focuses on understanding and analyzing our complex social world. Sociology examines:

- How inequalities are created and maintained
- The impact of race and ethnicity, gender, sexual orientation, ability and disability on individual life chances
- Institutions such as families, workplaces, prisons, states, and schools
- The role of ideas and symbols in shaping social relations and institutions
- Processes such as globalization, democratization, immigration, and more.

Skills of Sociology Grads

- Explain important differences in the life experiences of people
- Present sociological explanations of social issues
- Identify / explain the impact and consequences of social policy and social institutions
- Make an evidence-based argument
- Work with people who differ in race, ethnicity, gender or class
- Write a report that can be understood by a broad audience
- Evaluate the strengths and weaknesses of different research methods
- Analyze and interpret results of various quantitative and qualitative data using tables and graphs
