TRADITIONAL LAND ACKNOWLEDGMENT

We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit River. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.
Learn by doing. A pioneer in co-operative learning, studying here will build a foundation for your career or graduate education by combining hands-on training with a rigorous theoretical education.

“...The University of Toronto Scarborough welcomes you to an exceptional, inclusive and diverse community of students, faculty and staff that ignites the imagination, sustains a passion for creativity, nurtures social consciousness and entrepreneurship, and inspires learning and scholarship which has positive local and global impact.”

– Professor Wisdom Tettey, Vice-President, University of Toronto and Principal, U of T Scarborough

Our Campus

1,250+ courses
300 acres of campus
250+ program options
13,843 students

U OF T QUALITY

When you join our community, you’ll take your place among Canada’s future leaders.

U of T Scarborough is part of the University of Toronto, one of the best public research universities in the world—and recognized as Canada’s top university.

LEARN FROM THE BEST

12 books, 54 book chapters and 625 papers in refereed journals were published by U of T Scarborough faculty members in 2018–19

STUDY WITH THE BEST

1 university in Canada and 18th globally (2020 Times Higher Education World University Rankings)

40% increase in tenure-stream research faculty since 2011

DID YOU KNOW?

Our graduates have won the John Black Aird Scholarship for being the top U of T graduate 5 times in the last 9 years!

ANNIE SAHAGIAN

Media Studies & Human Biology

Aleppo, Syria

From her first moment on campus, Annie knew that she had found the university for her. “I instantly felt that this is the right fit for me,” she says. “A warm, friendly and encouraging community is what I felt and have loved ever since.”

Annie has contributed to the community through her involvement on the U of T Scarborough (UTSC) Campus Council, Student Mental Health Advisory, tri-campus governing council, Armenian Students’ Association and the Biology Students’ Association. She has also worked in 7 departments at U of T Scarborough and the St. George campus such as the School of Continuing Studies, UTSC Development and Alumni Relations, and UTSC Admissions and Student Recruitment.

In recognition of her contributions, Annie was selected to bring greetings to the graduating class and represent U of T Scarborough as an ambassador at the 2020 convocation, an online celebration held during the COVID-19 pandemic.

“It was an honour and a privilege to be asked to represent U of T Scarborough. My U of T experience has made me who I am today.”
INNOVATION

We are always searching for better ways to think, learn and educate. Within the University of Toronto’s tri-campus system, U of T Scarborough has earned the reputation of being the place for innovative students seeking real-world experience.

SUCCEED BEYOND GRADUATION

#1

in Canada and #15 in the Global University Employability Ranking 2019

39%

increase in research funding over 5 years

JUST SOME OF THE INNOVATIONS AT U OF T SCARBOROUGH

- 30 companies formed in 2018–2019 at The Hub, U of T Scarborough’s incubator for student entrepreneurs.
- U of T Scarborough’s Department of Psychology developed Canada’s first undergraduate program in Mental Health Studies.
- An Anthropology professor from U of T Scarborough participated on a research team that discovered that ostrich eggshell beads traded more than 30,000 years ago offer the earliest proof of social networking among humans.
- The BRIDGE, a collaboration between the Department of Management and the U of T Scarborough Library, is a best-in-class business research centre where students access and analyze real-time data, market intelligence, industry research and company profiles.
- Researchers at U of T Scarborough have developed a method for turning waste cooking oil from restaurant deep fryers into high-resolution, biodegradable resin for 3D printing.

SRISUDHAKAR NOWDURI

Human Biology & Biochemistry
Scarborough, Ontario

The Undergraduate Research Poster Forum gives students the opportunity to present their research addressing issues of local, national and global importance. Srisudhakar placed second in 2020 with his poster on the effects of surface stiffness and hydrophilicity (wetness level) on bacteria adhesion.

As a member of HOSA at U of T Scarborough (an organization for future health-care professionals), Srisudhakar also showcased his academic and research experience as a competitor in the Biomedical Debate. After winning multiple medals in national and international competitions, he trained other students participating in the event. Srisudhakar was also a reviewer on the Journal of Natural Sciences, established at U of T Scarborough in 2018.

“Taking part in research has given me a greater appreciation of the science principles I read about in textbooks. Experiencing the cycles of failed experiments and repeated trials before a breakthrough gave me a glimpse of the amount of effort that goes into expanding our understanding of the world through science.”
ENVIROMENT

When you step on the campus, you can see why so many students choose us. U of T Scarborough is nestled in 300 acres of the Highland Creek Valley, a gorgeous parkland that is one of Toronto’s most vibrant green spaces. It’s an inspiring environment to study in, and a great community to call home.

RESIDENCE

Your home away from home on campus is less than a five-minute walk from academic buildings. All residences at U of T Scarborough are furnished, have well-equipped kitchens, optional meal plans, and 68% feature single bedrooms. In addition to being a safe, comfortable place to stay, residence offers students the chance to develop their independence while discovering and being part of an active, close-knit community. The various learning experiences in residence help students transition to independence in a vibrant on-campus community that supports academic and personal development through a variety of activities, support and services. Staff, Residence Advisors and Counsellor-in-Residence are all available to support students in residence and to foster the development of a healthy and positive community.

AN INTIMATE ACADEMIC EXPERIENCE

67% of classes have fewer than 50 students

students is the average per lab section of a science class

DID YOU KNOW?

Toronto Pan Am Sports Centre and the Environmental Science & Chemistry Building were both awarded LEED Gold for energy efficiency.

ENVIRONMENTALLY FRIENDLY CAMPUS

1,854 solar panels atop the Toronto Pan Am Sports Centre

6 unique walking/biking routes encompass a variety of terrain and plant life and present the exceptional scenery and wildlife of Highland Creek

ADAM POULIN

Human Biology

Atikokan, Ontario

For students studying away from home, building a community on campus makes for a full university experience. Living in on-campus student housing helps students move out of their comfort zones and meet new people. Adam enjoyed living on campus so much, he joined the Residence Life Team in his second year to promote a safe and supportive space for students to study and live in. He shares, “The best part about living on campus is the incredible community. Students from all over the world are able to share their culture and life experiences with one another. It makes for a diverse, welcoming and awesome place to be.”

Living independently may sometimes feel overwhelming but there is always an aspect that will make you feel at home. For Adam, it was the close proximity to nature.

“Growing up in Northwestern Ontario, I was always outside. Getting outdoors has always been my way of recharging my batteries. Seeing a deer run across campus or spending some time in the valley helps me slow down and relax after a week of studying.”
EXPERIENCE

Let yourself go beyond books and lectures. Through meaningful volunteer opportunities, stimulating field courses and eye-opening international exchanges, you receive first-hand understanding of what you’re learning in the classroom and how it applies to the world.

A GLOBAL EXPERIENCE

125
countries are represented in U of T Scarborough’s student population

3
certified immigration advisors on staff

130+

INTERNATIONAL OPPORTUNITIES

U of T Scarborough has a variety of international programs for students to learn, research and work abroad. Students can participate in learning abroad opportunities in 40+ countries around the world, gain valuable international research experience and enhance their future employment opportunities.

DID YOU KNOW?

Students who demonstrate financial need can be awarded up to $10,500 for an international experience.

ANGELA ATHANASIOS
Management & International Business (Co-op)
Barrie, Ontario

The highlights of Angela’s experience as a U of T Scarborough student were her study term in Sweden and work term in Kenya.

Angela immersed herself in new cultures and experienced the lifestyle in the countries she visited during her terms abroad. She encourages students to avoid waiting on others to experience new things and to take advantage of opportunities.

“The people I have met and the relationships I have built while abroad were the best parts of my undergraduate experience. That, and of course, jumping from country to country every weekend!”
What makes U of T Scarborough special isn’t just our strong academics—it’s a campus atmosphere that inspires you to follow your passions so that you can have the best experience possible.

opportunities recognized through the Co-Curricular Record, the most of the U of T campuses

1,600+
35,000 m²+
SUPPORT

Not only does U of T Scarborough have the top-notch classrooms, research areas and labs that help you to excel, we’ve designed the campus to keep our community intimate and friendly.

Here’s what it means for you: you’ll discover what you want to learn and who you want to be. You’ll build the skills needed to advance your career. You’ll meet people who will change your life. You’ll have an incredible time.

WE’VE GOT YOUR BACK

3
Indigenous staff available on campus for student support, outreach activities and events

10+
on-campus chaplains connecting with students and offering spiritual education and support

3,000+
students participated in our 2019-2020 first-year experience program

1,000+
students attended 2020 Culture Shook, our annual week of events that celebrate diversity and inclusion on campus

DID YOU KNOW?

Through our financial assistance programs and generous entrance scholarships, we do our best to ensure that financial need isn’t a barrier to education.

$1.9M+
in entrance scholarships awarded to incoming students in 2019

ABHIMANYU AMIN
Molecular Biology & Biotechnology (Co-op)
Jamshedpur, India

Abhimanyu came from a small town in India to pursue his passion for science and technology. “U of T Scarborough has the perfect mixture of urbanization and nature which is the kind of place I always wanted to study in. I enjoy Toronto’s awesome nightlife, but also love that when I need to take a break on campus, I can walk down to the valley to skip stones and refresh my mind.”

The warm and welcoming community at U of T Scarborough also helped Abhimanyu feel at home in Canada. “The International Student Centre organized check-in meetings and supported me through my transition here to Canada.”

Abhimanyu’s involvement in student life has also helped him to flourish. “I have been a part of TEDxUTSC for the past two years and conducting conferences has taught me a lot about communication and networking. I was also the co-vice president of the Hindu Students’ Council and the Director of International Students on the Scarborough Campus Students’ Union.”
COMMUNITY: SCARBOROUGH

Scarborough is the most diverse neighbourhood in Canada’s most diverse city.

The multi-ethnic enclave is located on the eastern edge of Toronto and is home to a vibrant community and breathtaking natural beauty. U of T Scarborough students have easy access to all the entertainment, shopping and cultural experiences that this dynamic region has to offer.

HOME IS SCARBOROUGH

140+ languages and dialects are spoken in Scarborough

50%+ of Scarborough’s 600,000+ residents are immigrants

WE LOVE OUR COMMUNITY

100+ weekly community outreach opportunities at eight sites in Scarborough

1,500+ local middle and high school students served by over 300 UTSC undergraduates through the Imani Academic Mentorship Program since 2005

ALL YOU CAN EAT

Author and economist Tyler Cowen calls Scarborough “the dining capital of the world” due to the area’s incredible food scene.

TORONTO’S GREENEST AREA

15 km of escarpment along Lake Ontario make up the giant clay cliffs known as the Scarborough Bluffs

47 km² of park space in Rouge Park, Canada’s first National Urban Park

5,000+ animals and 10 km of walking trails in the Toronto Zoo, Canada’s largest zoo and less than 5 km from campus

JANIE CHIU

Management & Marketing (Co-op)
Vancouver, British Columbia

Studying in Scarborough means students experience new cultures by being part of Canada’s most diverse city. Janie loves visiting local destinations, such as restaurants, events, and scenic spots, and enjoys sharing her favourite finds on her food Instagram account.

She says the best thing about being in a new environment is learning how to adapt and be comfortable with your surroundings. As Janie made new friends on campus, she learned about and fell in love with the different cultures represented and celebrated at U of T Scarborough.

“Coming from Vancouver to study across the country was a big step for me. I chose Toronto, and U of T Scarborough in particular, because I wanted to step outside of my comfort zone and become more independent.”
The “Healthy Campus” initiative means that everything we do—from teaching, research, and student activities, to the facilities and the grounds we design, build and use—are health-enhancing.

**82%** of our students participate in athletics and recreation, 7% higher than the national average

**16** high performance sports organizations train at the Toronto Pan Am Sports Centre

**11,000 m²+** of outdoor playing fields and tennis courts

A weekly farmer’s market takes place on campus and features local farmers, producers and artisans (bi-weekly throughout the winter).

**HEALTHY CAMPUS**

**FITNESS & INSTRUCTIONAL**

U of T Scarborough offers beginner, intermediate and advanced fitness and instructional classes.

**DID YOU KNOW?**

Access to the state-of-the-art Toronto Pan Am Sports Centre is included in student fees for U of T Scarborough students!

“Sports play a huge role in my student life and give me self-esteem, confidence and a sense of belonging. My work-study positions within the Department of Athletics & Recreation have also given me the opportunity to interact and meet many other students and staff at U of T Scarborough. In addition, as a female fitness ambassador, I regularly helped women achieve their strength and fitness goals to help develop a community that is strong and resilient.”

**ESMA BOZTAS**

Public Policy (Co-op) & Psychology

Bursa, Turkey

Being active is integral to Esma’s overall health and success at U of T Scarborough. She plays intramural soccer, flag football and field hockey. During the 2019–2020 season, her flag football team advanced to semi-finals, while her soccer and field hockey teams won championships. Esma is also an assistant coach of a fitness kickboxing class offered at the Toronto Pan Am Sports Centre (TPASC) and a member of MoveU, a tri-campus initiative that promotes active lifestyles.

OUR PROGRAMS

SO MUCH TO LEARN

250+ program options
1,250+ courses offered annually
CO-OP PROGRAMS

In today’s competitive global employment landscape, every little bit counts. The U of T Scarborough co-op program is designed to give our students every advantage and prepare them for life after their undergraduate degree.

Through partnerships with world-class and industry-leading employers, co-op programming helps students put classroom theory into practice and gain invaluable work experience. By the time they graduate, students who have completed a co-op program will have acquired 8 to 20 months of full-time, paid on-the-job experience in addition to a degree from the top university in Canada.

Earn your degree while gaining relevant paid employment experience in the working world. You will develop the skills, knowledge and expertise necessary to secure rewarding positions after graduation or go on to graduate school and professional programs.

80+
co-op program options available

Students can graduate in 4 years in almost every co-op program or create a flexible plan to extend their studies as needed.

Co-op International Development Studies and the Double Degree (BBA/BSc) are 5-year programs.

RACHEL SHAM
Management & Accounting (Co-op)
Pickering, Ontario

Rachel chose U of T Scarborough because of the university’s global recognition, co-op program, and connections to industry. “I love the resources that U of T offers, particularly the great alumni networks that connect student with exclusive experiences.”

Rachel completed work terms at KPMG, one of the largest accounting firms in the world. Her responsibilities included auditing international consumer packaged goods and European automobile companies. In addition to applying the knowledge gained through her studies, Rachel’s co-op work terms instilled business etiquette and practical skills.

“Co-op has definitely helped me get my foot in the door. Work experience is very advantageous in obtaining full-time employment after graduation.”

JOSHUA ATIENZA
Biochemistry & Molecular Biology (Co-op)
Toronto, Ontario

During Joshua’s co-op work terms in Toronto and Montreal, he collaborated and learned from scientists who are leaders in their fields. During his first co-op work term, he studied rare genetic bone diseases at CHU Sainte-Justine pediatric hospital in Montreal. Joshua’s other work terms were completed at the Hospital for Sick Children (SickKids) in Toronto, where he focused on inborn errors of metabolism.

During his final year of studies, Joshua became a co-op peer coach to help guide new co-op students through the job search process and pursue their own rewarding experiences.

“Co-op showed me the importance of a good mentor. My research team and supervisors have taught me a lot about what it means to be a good scientist. They helped me grow beyond my comfort zone, and have challenged me to strive to be the best version of myself.”

Whether it’s the intersection of mathematics and educational practice, a desire to build a career working with vulnerable populations or you want to complement your undergraduate education with a professional or master’s degree, U of T Scarborough has great options for you.

Through our combined degree options, students are able to smoothly bridge from undergraduate to graduate degree studies at the University of Toronto. Students begin with an undergraduate degree in one of the listed programs and add the graduate degree as they progress through their studies. Learn to lead, innovate and educate with a combined degree program.

COMBINED DEGREE PROGRAMS

**MASTER OF TEACHING**
These are great avenues if you’re interested in training the next generation of scholars in their field.

**Bachelor of Arts and Master of Teaching**
- English
- Evolutionary Anthropology
- French
- Geography: Human
- History
- Socio-Cultural Anthropology
- Sociology
- Theatre & Performance

**Bachelor of Science and Master of Teaching**
- Biochemistry
- Biological Chemistry
- Biology
- Chemistry
- Conservation & Biodiversity
- Environmental Biology
- Environmental Chemistry
- Environmental Physics
- Human Biology
- Integrative Biology
- Mathematics
- Molecular Biology & Biotechnology
- Molecular Biology, Immunology & Disease
- Physical & Mathematical Sciences
- Physics & Astrophysics
- Plant Biology

**MASTER OF ENGINEERING**
By combining a bachelor’s degree in Environmental Science with a professional Master of Engineering degree in Chemical or Civil Engineering, you’ll acquire the industry-relevant skills and experience to chart a career in environmental fields.

**Bachelor of Science and Master of Engineering**
- Environmental Biology
- Environmental Chemistry
- Environmental Geoscience
- Environmental Physics

**BACHELOR OF ENVIRONMENTAL SCIENCE**
If you’re interested in applying ecological theory to real-world conservation challenges, assessing and planning for climate change impacts or looking for a career in environmental monitoring, remediation and restoration, this flexible combined degree program is for you.

**BACHELOR OF SCIENCE AND MASTER OF SOCIAL WORK**
Social workers strive for positive change in the communities in which they work. This program is a terrific opportunity if you’re interested in working towards a career in this field, especially with an eye towards mental health.

**BACHELOR OF BUSINESS ADMINISTRATION AND MASTER OF ACCOUNTING & FINANCE**

**MASTER OF ACCOUNTING & FINANCE**
This combined degree program is accredited domestically with the Chartered Professional Accountants (CPA) and globally with the Association of Chartered Certified Accountants (ACCA). Within the finance discipline, our curriculum is aligned with the CFA Institute’s Candidate Body of Knowledge, representing the generally accepted skill set used by global investment professionals. Combine the BBA program with North America’s first graduate degree in accounting and finance to accelerate your career trajectory.

**BACHELOR OF SCIENCE AND MASTER OF SOCIAL WORK**

- Mental Health Studies

**BACHELOR OF SCIENCE AND MASTER OF ENVIRONMENTAL SCIENCE**

- Conservation & Biodiversity
- Environmental Biology
- Environmental Chemistry
- Environmental Physics
- Integrative Biology

**BACHELOR OF SCIENCE AND MASTER OF ACCOUNTING & FINANCE**

- Management & Accounting

ARTS PROGRAMS

Critical thinking and creativity are foundational in the Arts programs at U of T Scarborough. Within this academic area, students explore languages, culture, fine arts, history, literature and philosophy and apply inquisitiveness, communication and logic to some of society’s most complex questions.

Whether you’re interested in exploring the politics of climate change, questioning systems that reproduce poverty, inequality and oppression, examining how digital technology is changing traditional media, or pursuing essential creative and technical skills in arts or music, you’ll be able to find courses to suit your interests in the expansive U of T Scarborough Arts programs.

ADMISSIONS CATEGORIES

- Social Sciences & Humanities
- Co-op Social Sciences & Humanities
- Co-op International Development Studies
- French
- Co-op French
- Journalism
- Visual & Performing Arts, Arts Management and Media
U of T Scarborough brings the humanities and social sciences to life through traditional and cutting-edge programs. From the mysteries of ancient civilizations to the glory of the performing and visual arts, leading faculty cross traditional academic boundaries, cultures and even media to guide you to new understandings about how we view individuals, society and our inner and outer worlds.

**SOCIAL SCIENCES & HUMANITIES**

- African Studies
- Anthropology
- Anthropology: Evolutionary (BSc)
- Anthropology: Socio-Cultural (BA)

- Literature & Film Studies
- Politics
- Political Science
- Psycholinguistics
- Public Law
- Public Policy
- Sociology
- Urban Public Policy & Governance
- Women’s & Gender Studies

**FRENCH**

- French

**CO-OP INTERNATIONAL DEVELOPMENT STUDIES**

- International Development Studies (BA/BSc; co-op only)

- These programs have a co-op option

**CERTIFICATE IN BIOARCHAEOLOGY**

Skeletal remains can help us reconstruct past ways of life, in particular patterns of subsistence, diet, disease, demography and physical activity. Students enrolled in this certificate program receive concentrated training in Bioarchaeology, the subdiscipline of Archaeology that focuses on the study of biological materials from archaeological sites, with a particular emphasis on skeletal remains (both human and non-human).

**CERTIFICATE IN GLOBAL DEVELOPMENT, ENVIRONMENT AND HEALTH**

Global fluency has never been more important than in today’s progressively interconnected world. Students who complete the certificate in Global Development, Environment and Health cultivate a globally-oriented critical lens through which to view the world. Building upon U of T Scarborough’s longstanding academic strengths in interdisciplinary and experiential education, students develop a highly desired global perspective through this innovative certificate.

**NATASHA HESELDEN**

**Anthropology & Political Science**

Pickering, Ontario

Natasha was unsure of what she wanted to major in, so she took a broad range of courses in her first year. She found Political Science and Anthropology the most interesting and enjoyed the applications to everyday life. “The skills and lessons I have learned have made me a better thinker and expanded my capabilities.”

Natasha values the close student-faculty relationships at U of T Scarborough. She worked as a Research Assistant alongside two other students and their professor, travelling and writing research papers on tiny houses.

“UTSC has some of the best and kindest faculty. They are always there to help you do your best.”
SYLVIE STOJANOVSKI
Arts Management
Toronto, Ontario

Sylvie had a passion for both arts and business, so she decided that Arts Management would be the perfect program for her. She loves the opportunities for experiential learning and independent research both inside and outside of the classroom. “I like the small class sizes and the chance to develop strong working relationships with professors. The Arts Management program provides a good balance of theoretical and practical courses, which helps students to either go straight into the field, or pursue graduate studies.”

Sylvie combined her love of arts, community and leadership as the Director of Community Relations & Development and Festival Lead for ARTSIDEOUT. The festival transforms U of T Scarborough with site-specific installations, exhibitions, performances and film screenings.

“Being part of ARTSIDEOUT has been one of the highlights of my university experience. I was able to put the concepts and theories I learned in class into practice—from planning and implementing the festival’s first-ever high school outreach tour and executive leadership retreat, to eventually leading the organization’s largest festival yet!”

ARTS PROGRAMS

A vibrant collection of programs that bring with them a wealth of artistic and academic opportunities. If you want to focus on a single discipline, you can do so in unique programs like our joint programs in Journalism and New Media Studies. Or you can combine a number of multi- and interdisciplinary offerings that enable you to engage your passion in the arts while studying disciplines in other departments.

SCIENCE PROGRAMS

Award-winning faculty members, leading-edge facilities and inquisitive students are at the heart of the sciences at U of T Scarborough.

Our students enjoy a mix of lectures, laboratory experience and field trips that instills them with the knowledge and academic rigour to advance in their chosen field and careers. With the well-rounded science programs at U of T Scarborough, our graduates are well-positioned to enter medical, nursing and dentistry school, pursue graduate studies or join the modern workforce.

Joint program with Centennial College

CERTIFICATE IN BIOLOGICAL SCIENCES RESEARCH EXCELLENCE

U of T Scarborough students can augment their degree from one of the world’s leading research universities with the Certificate in Biological Sciences Research Excellence. By taking a range of research courses, recipients of this certificate graduate with advanced-level science research experience and the skills needed to address the world’s most pressing challenges.

Bhanvi Sachdeva
Neuroscience
Calgary, Alberta

Bhanvi decided to study Neuroscience and minor in Psychology to better understand the functionality and complexity of the brain. U of T Scarborough has been the perfect setting for Bhanvi’s wide range of interests. She is an executive member for Math in Motion, an organization that plans an event for grade 9 girls to explore mathematics and its many applications. Bhanvi also became a Science and Technology writer for The Varsity, a U of T tri-campus newspaper. She is considering going to medical school to pursue neurosurgery and hopes to continue publishing her poetry along the way.

“I am fascinated by how my program is interconnected with various disciplines, like the relationship between neuroscience and psychology with other streams such as computer science or business.”

Tree coring field trip
SCIENCE PROGRAMS

From artificial intelligence to big data, U of T Scarborough’s professors share the most current industry application and academic theories available in these rapidly changing fields. Innovative problem-solving and practical skills mean STEM (science, technology, engineering and mathematics) graduates are in high demand in all sectors.

COMBINED MATHEMATICS AND MASTER OF TEACHING

Students interested in the convergence of mathematics and educational practice have a unique opportunity through the Combined Mathematics and Master of Teaching program. Building on a solid undergraduate education in Mathematics, combined degree students gain early admission to the Master of Teaching program at the top-ranked Ontario Institute for Studies in Education.

EDGAR SARKISIAN

Computer Science (Co-op)
Richmond Hill, Ontario

Edgar chose to study computer science because he wants to use technology to make a difference in the world. Edgar has a lot of respect for all of his professors. “We’re really lucky to have professors who are passionate not only about their area of study but also about pedagogy. I really appreciate when professors go the extra mile to ensure that our learning experience is pleasant and challenging.”

U of T Scarborough annually hosts Hack the Valley, the second largest hackathon in Canada.

“I can’t stress enough how cool it is to see so much innovation and positivity come out of a student-run event. I highly recommend participating in a hackathon at least once. Even if you don’t complete a project during the event, you meet a lot of cool people with similar interests, and get inspired by all the speakers and special guests.”
Curious about chemistry? Wonder what we can do about water shortages? Our award-winning instructors will inspire you to delve deeply into subjects from planetary physics to the benefits of electric cars. Qualified environmental scientists are also in demand around the world. Explore today’s environmental challenges through our strong environmental science undergraduate and master’s programs or our interdisciplinary PhD.

COMBINED PHYSICAL & ENVIRONMENTAL SCIENCES AND MASTER OF TEACHING

If you’re passionate about science and want to pass that passion on to the next generation of science students, the Combined Physical & Environmental Sciences and Master of Teaching program is perfect for you. You’ll develop a deep understanding of your subject from world-leading experts before gaining early entry to the Master of Teaching program at the Ontario Institute for Studies in Education.

COMBINED ENVIRONMENTAL SCIENCE AND PROFESSIONAL MASTER OF ENGINEERING

The world needs a new kind of professional to develop solutions to challenges such as climate control, natural resources management and ecosystems maintenance. The Environmental Science and Professional Master of Engineering pathway combines a solid foundation in Environmental Science academic disciplines with advanced training in Civil or Chemical Engineering. Successful graduates earn a Bachelor of Science and a Master of Engineering degree from the University of Toronto, all in five years.

NAYAAB PUNJANI
Biochemistry (Co-op) & Mental Health Studies
Scarborough, Ontario

Nayaab became interested in the sciences at a young age and when it came time for university, she wanted a co-op experience in biology and chemistry and chose the Biochemistry Co-op program at U of T Scarborough. After discovering new interests during first year, she decided to pursue a double major, along with a French minor to further develop her French skills.

Nayaab encourages students to take advantage of resources and opportunities available outside the classroom.

“I am glad I got the chance to supplement my education with additional experiences. This includes attending networking and skills workshops by the Academic Advising & Career Centre, utilizing the 3D printers at the UTSC Library Makerspace, and taking part in school clubs and Departmental Student Associations. I also participated in the UTSC Undergraduate Research Poster Forum which gave me the chance to highlight my undergraduate research experience and enhance my scientific communication as I prepared an abstract poster and presentation.”
SCIENCE PROGRAMS

Some of the most compelling and longstanding questions in the history of human thought seek to understand the mind and behaviour: How do we learn, adapt and remember? Why do we act as we do? What causes mental disorders from the level of the brain to the impact on everyday life? This is where we’re unravelling some of the mysteries of the brain and its mechanisms of action.

PSYCHOLOGICAL & HEALTH SCIENCES

- Health Studies: Population Health
- Mental Health Studies
- Psychology
- Double Degree (BSc/BA): Psychology & English

• These programs have a co-op option

COMBINED MENTAL HEALTH AND MASTER OF SOCIAL WORK

Complement a strong foundation in Mental Health Studies from U of T Scarborough with a Master of Social Work from U of T’s Factor-Inwentash Faculty of Social Work. This program provides a rich intellectual pathway for exceptional undergraduate students by providing access to social work research before the completion of the undergraduate degree. It offers students an opportunity to become equipped for evidence-informed social work practice, through a research course in fourth year co-supervised with a Faculty of Social Work faculty member. This exciting combination provides ideal preparation for a career in the health sciences or social work, offering the opportunity to begin research in your undergraduate work that can be continued in graduate school.

MICHAEL GAYLE
Psychology
Scarborough, Ontario

Michael chose to pursue undergraduate studies after the completion of a college diploma. “At U of T Scarborough, you are offered a very academically diverse experience. I chose to major in Psychology and minor in Anthropology because I enjoy sciences of exploration.” He appreciates how involved his studies are in a broad range of subjects. “I get to study principle subjects like neuroscience, but also can explore more ornate or abstract subjects like the study of emotion or music cognition.” Michael is also pursuing a minor in English Literature, a high area of interest as the author of two children’s books. “The atmosphere at U of T Scarborough is not like any other universities I have visited. The environment is welcoming and will be exactly what you make of it.” Michael also pursued studies away from the U of T Scarborough campus as an exchange student in Italy.

“It was an invaluable experience academically and in every other way possible. I encourage everyone with the opportunity and desire to study abroad to definitely do so!”
BUSINESS PROGRAMS

The increasingly complex business landscape requires a new generation of leaders to tackle the world’s most pressing challenges. Our business programs prepare students with the latest in management theory, strategy, and skills to excel in the modern business environment.

Combining rigorous academics with intensive applied learning experiences, professional skills preparation, and interpersonal development including cross-cultural communication, it’s no wonder that U of T consistently ranks as the top university in Canada for producing career-ready graduates. U of T Scarborough Management students are trained in every functional area of business management as a foundation, with the option to specialize and pursue 12 months of paid co-op employment while they complete their studies.

Through real-time business simulations, a variety of co-curricular opportunities with diverse students, and world-class teaching by faculty experts, our program offers a world-class learning environment for students to build their Experience to Lead.

ADMISSIONS CATEGORIES

Management
Co-op Management
Co-op Management & International Business
Double Degree (BBA/BSc) Management & Finance and Statistics — Quantitative Finance Stream
Double Degree (BBA/BSc) Co-op Management & Finance and Statistics — Quantitative Finance Stream

Management students Flora and Daniel at The BRIDGE
BUSINESS PROGRAMS

Business leaders require flexibility, adaptability, and creativity to succeed in today’s competitive environment. U of T Scarborough’s Management graduates have boundless opportunities and are employed in every sector domestically and internationally by top global companies. The program also provides a solid foundation for entrepreneurs and students who wish to pursue professional certification in areas such as accounting and human resource management, or further study in graduate programs or law.

COMBINED BBA AND MASTER OF ACCOUNTING AND FINANCE

A combined degree program allows you to benefit from a direct pathway to the Master of Accounting and Finance (MAccFin) program starting in the second year of the Management & Accounting program. You will benefit from the strength of each program’s curriculum, increase your competitive edge in the job market, and prepare for two Accounting designations and one Finance designation.

With integration of advanced courses in accounting, finance, leadership, data analytics, and strategy, along with practical experience through co-op, graduates will be well prepared for ascending positions in both Accounting and Finance.

Didier Ramazani Buledi
Management & Economics (Co-op)
Markham, Ontario

Didier chose the Management program at U of T Scarborough because he recognized that the program would help him reach his goals for the future. He especially valued the work experience that co-op provided.

In addition to his studies and co-op work terms, Didier founded Standout, the campus’s first management communications student club. The club trains students to improve their communications skills and fosters mentoring relationships.

Didier graduated in 2020 and is now pursuing a master’s degree in management innovation and entrepreneurship and launching a startup company.

“After completing three co-op work terms, I can confidently say that I am ready to enter the workforce.”

OLGA POPOVA
Management & Marketing (Co-op)
Toronto, Ontario

The relevancy of courses, projects and assignments to the modern world is what Olga loves most about studying in the Management program at U of T Scarborough. “There is so much to learn just from listening to the inspiring stories, lessons and accomplishments that our professors share during lectures.” After a successful co-op term at Metrolinx, Olga shares, “Co-op has taught me so much about leadership styles, effective meeting tactics and how different teams work together to achieve a common goal.”

Olga stays involved in the campus community as a member of multiple clubs and attending various events held at U of T Scarborough throughout the year. Olga is currently co-president of the Management and Economics Students’ Association (MESA).

“I absolutely love all the events that happen on campus and how easy it is to be involved. From professional development, to athletic and cultural-social events, I am able to meet new people, have a great time with my friends and learn valuable skills I can use in the future.”

STATE-OF-THE-ART FACILITIES AND APPLIED LEARNING

In addition to 100% Work-Integrated Learning opportunities in the classroom, students in Management programs now have access to The BRIDGE: a leading-edge, multi-purpose learning space that includes an advanced trading lab, a dedicated business library, and a mentorship program for students interested in starting businesses.
HOW TO APPLY
APPLICATION & ADMISSIONS PROCESSES

1. COMPLETE AN ONLINE APPLICATION FORM

Pay attention to application deadlines.
Ensure that your mailing address and email address are correct—that’s how we will communicate with you!
ouac.on.ca

2. REVIEW YOUR “TO-DO” LIST

Find out which supporting documents you will need to send, including information about academic records, English language facility and supplementary information.
future.utoronto.ca/apply/to-do-list

3. USE THE JOIN U OF T ADMISSION WEBSITE

Login instructions for JOIN U of T will be sent to you in the acknowledgment email.
Check the JOIN U of T website to see the status of your application, confirm the receipt of documents and view admissions decisions.
join.utoronto.ca

4. SUBMIT YOUR SUPPLEMENTARY APPLICATION FORM (SAF) IF REQUIRED

While most programs at U of T Scarborough will be using only your academic record for admissions consideration, some programs do require that you submit additional information.
If you do not submit your Supplementary Application Form by the deadline, you may jeopardize your application.
utsc.utoronto.ca/admissions/saf

Deadlines are subject to change. To ensure consideration, submit your application and documents as early as possible.

SELECTION CRITERIA

The general requirements for admission can vary by educational jurisdiction. Further information can be found at future.utoronto.ca.

Applicants are considered based on a wide range of criteria, including:
- Academic record
- Consistency of achievement
- Performance in subject prerequisites
- Supplementary Application Form (SAF) where required
- Interview where required
- Special consideration and extenuating circumstances

The University of Toronto does not have the capacity to admit all applicants who meet the minimum general and program-specific requirements. We seek to admit the best possible students on the basis of academic performance and potential, and will select students for admission based on competitive strength.
ENGLISH LANGUAGE REQUIREMENTS

Proof of English language facility is required from all undergraduate applicants except for those:

- Whose first language (i.e., the language they learned at home as a child) is English, or
- Who have achieved satisfactory academic progress in at least four years of full-time study in an English-language school system located in a country where the dominant language is English, or
- Whose first language is French and who have achieved satisfactory academic progress in at least four years of full-time study in Canada.

Please note that other English language tests and qualifications are also considered.

For a comprehensive list and complete details on our English language proficiency requirements, visit uoft.me/elr

Acceptable English Facility Tests

- Cambridge Assessment English C1: Advanced or C2 Proficiency: A minimum overall score of 180, with at least 170 in each component.
- Canadian Academic English Language (CAEL): A minimum overall score of 70, with no part below 60.
- Canadian Test of English for Scholars and Trainees (CanTEST): A minimum total score of 4.5, with no part below 4.
- Caribbean Examinations Council English courses: A final grade of A(1)/B(1) in CSEC English.
- CELTA/COPE: A minimum overall score of 86, with no part below 8.0.
- GCSE/GCE/GCE/AICE English courses: A minimum final grade of 4 in GCSE/IGCSE/A Level English, or English Language; A minimum final grade of 5 in GCE A Level English, or English Language.
- International Baccalaureate English: A minimum score of at least 4 (predicted or final) in Higher Level or Standard Level English A: Language or English Language, or English as a Second Language; OR a minimum final or predicted grade of “C” in GCSE A Level/AS Level/AICE English or English Language.
- International English Language Testing System (IELTS): A minimum overall band 6.5 with no band below 6.0.
- Ontario College of Applied Arts and Technology: A three-year diploma (Advanced Diploma) or Applied Degree in an academic program at an Ontario College of Applied Arts and Technology with minimum overall grades of 'B+'.
- Test of English as a Foreign Language (TOEFL): Internet-based test: A minimum total score of 100 on writing. Paper-based test: Tests will be reviewed on an individual basis.
- University of Toronto School of Continuing Studies: Academic English course: A minimum grade of "B" at the 60/Advanced Level.
- University Studies: One full year or four full transferable degree courses at a recognized English-medium university located in a country where English is the dominant language, with minimum grades of "C".

Please note that other English language tests and qualifications are also considered.

For a comprehensive list and complete details on our English language proficiency requirements, visit uoft.me/elr

ACADEMIC ENGLISH

The University of Toronto Scarborough also offers Academic English, a summer language program for newly admitted students whose English proficiency scores are below the minimums required for direct admission. Admission to this program is competitive. Applicants must be highly qualified academically and need to satisfy the English Facility admission requirement. Applicants who are eligible for this program will receive a conditional offer of admission to U of T Scarborough and an invitation to register for Academic English.

Students enjoy the warm weather in the Fred Urquhart Memorial Garden

Joan Foley Hall

TRANSFER CREDIT

We generally accept transfer credits from credit courses offered by other recognized post-secondary institutions or advanced curricula, where the course content is equivalent to the U of T Scarborough course. Detailed instructions will be included in your offer of admission package. Applicants from Canadian universities can use Transfer Explorer as a guideline to see how their courses will transfer to the University of Toronto for degree credit. Visit transferex.utoronto.ca

International Baccalaureate: Transfer credit is awarded for Higher Level (HL) exams where a final grade of at least 5 is achieved. No transfer credit is awarded for Standard Level (SL) exams.

Advanced Placement (AP) Examinations: Transfer credit is awarded to a maximum of 3.0 credits where a grade of at least 4 is achieved.

General Certificate of Education: Transfer credit is awarded for GCE Advanced Level examinations where a final grade of 'B' is achieved.

For more information on transfer credit for post-secondary and secondary studies, visit utsc.utoronto.ca/admissions/transfer-credits

TRANSFER STUDENTS FROM OTHER POST-SECONDARY INSTITUTIONS

University

Applicants with good academic standing in previous studies will be considered for admission. To be eligible for a U of T degree, you must complete at least half of your degree studies at U of T.

For the following limited enrolment programs, you should have completed our equivalent of 4.0 transferable credits, including the required first-year courses to be considered for direct admission:

- Biological Sciences
- Co-op Molecular Biology & Biotechnology
- Co-op Neuroscience
- Management
- Co-op Management
- Co-op Management & International Business
- Journalism

Specific courses may be required. Consult utsc.utoronto.ca/admissions/university-applicant

Ontario Colleges

We will consider your application if you have completed a two-year diploma, or at least two full years of a three-year diploma, in a program with sufficient academic content and minimum average of “B-”. Competitive programs may require higher averages.

All program prerequisites must be satisfied at the Grade 12 U level. Two semesters of each subject taken at an Ontario College may be considered in lieu of Grade 12 U program prerequisites.

U of T Scarborough has articulation agreements that provide transfer pathways in liberal arts or sciences. Visit utsc.utoronto.ca/admissions/canadian-post-secondary

For more information on transfer credit for post-secondary and secondary studies, visit utsc.utoronto.ca/admissions/transfer-credits
**NEXT STEPS**

### AFTER YOU APPLY

1. **Watch for an acknowledgment of your application**
   We will send you an acknowledgment email which will contain your U of T applicant number and JOINid shortly after we receive your application.

2. **Review the Application To-Do List**
   The Application To-Do List will list which documents you are required to submit for admission consideration, key deadline dates, how admissions decisions are made and much more. If you are considering living on campus, ensure you submit the University’s common residence application, StarRez, by the guaranteed deadline date of March 31.

3. **Fill out a Supplementary Application Form**
   If you applied to Management, Co-op Management, Co-op Management & International Business, Co-op International Development Studies, Double Degree in Management & Finance and Statistics—Quantitative Finance Stream, Co-op Double Degree in Management & Finance and Statistics—Quantitative Finance Stream, or Paramedicine, you will need to complete your Supplementary Application Form (SAF) before the deadline listed in your JOIN U of T portal in order to be considered for admission.

4. **Make note of any interviews**
   You may be asked to have an interview for admission to certain programs (e.g., Co-op Management & International Business or Co-op International Development Studies). You will be notified if an interview is necessary once your Supplementary Application Form (SAF) has been reviewed. Submit your SAF as early as possible in order to ensure interview consideration.

5. **Check your application’s status**
   The JOIN U of T website has useful information about any documents we require and how to send them to us, offer decisions and where you can confirm that we’ve received your acceptance. You can set up your JOINid, which grants you access to the website, as soon as you receive your acknowledgment and U of T applicant number.

### AFTER RECEIVING AN OFFER

1. **Accept Your Offer of Admission**
   Your offer of admission letter will be posted in your JOIN U of T portal. Follow the instructions to accept your offer by the deadline.

2. **Prepare to Study at U of T Scarborough**
   There are many things you can do to prepare to study at U of T Scarborough. They may not all apply to you so be sure you read things carefully.
   - a. Apply for residence (if you haven’t already done so by March 31) or look for off-campus housing: utsc.utoronto.ca/residences
   - b. Apply for available scholarships and finalize your financial plan: utsc.utoronto.ca/admissions/finances-overview
   - c. Apply for a transfer credit assessment (post-secondary applicants only): utsc.utoronto.ca/admissions/transfer-credits
   - d. Apply for or upgrade your study permit: utsc.utoronto.ca/isct

3. **Attend Get Started and Choose Your Courses**
   Get Started is an informative and interactive academic orientation hosted by the Academic Advising & Career Centre to help you transition to U of T Scarborough. All incoming students, and their parents, are encouraged to attend—and almost all do!

4. **Explore Your New Campus**
   Over the summer, we’ll be hosting many events, orientations, workshops to boost your math and writing skills, and more. We hope you take advantage of as many of these events as you can!

#### Government Loans & Grants

#### Ontario Residents

The Ontario Student Assistance Program (OSAP) is a government-funded financial aid program that offers loans and grants for Ontario residents. Applications are available at ontario.ca/osap. If you require assistance, contact the U of T Scarborough Financial Aid Office.

#### Other Canadian Provinces & Territories

Students residing in other Canadian provinces or territories can apply for student loans from their provincial (or territorial) governments.

#### Indigenous Students

Eligible students planning on enrolling in university studies may qualify for financial support through their band or other government-sponsored programs. Check with your band or with Indigenous and Northern Affairs Canada.

#### Other Countries

Students residing outside of Canada should check with their local governments for loans or funding applicable for studying in Canada.

SCHOLARSHIPS

Check what’s available at awardexplorer.utoronto.ca
Don’t forget: some awards require a nomination from your school.

ENTRANCE SCHOLARSHIPS — APPLICATION NOT REQUIRED

President’s Scholars of Excellence Program (PSEP) — $10,000
Awarded to approximately 50 of the most highly qualified students across the University of Toronto. In addition to the scholarship funds, students receive access to meaningful on-campus employment and an international learning opportunity. The PSEP award may not be held in conjunction with a U of T Scarborough entrance scholarship, though students with an average of 95%+ may qualify for the U of T Scarborough Entrance Scholarship renewability portion in years 2, 3 and 4.

U of T Scholars — $7,500
Awarded to the top students admitted to U of T Scarborough. Typically, students will have an average in the mid–90s. The U of T Scholars award may not be held in conjunction with a U of T Scarborough entrance scholarship, though students with an average of 95%+ may qualify for the U of T Scarborough Entrance Scholarship renewability portion in years 2, 3 and 4.
