The Centre for Ethnography
UNIVERSITY OF TORONTO
SCARBOROUGH

The Centre for Ethnography was established in 2007 to foster and promote ethnographic research and writing at UTSC. The Centre for Ethnography hosts an exciting annual speakers series, international workshops, undergraduate methods and research courses, and an annual competition for a fellowship in ethnographic writing.

People carrying out ethnographic fieldwork in the Toronto region may affiliate with the Centre for Ethnography while in Toronto, and are welcome to attend our speakers series and other events.
