Note:

1. High School Mathematics should include Advance Functions and Calculus & Vectors
2. Life Science programs require high school Chemistry and Biology results. Physical & Environmental Science programs do not require Chemistry results, but we encourage applicants to the Physical & Environmental Science program to take Chemistry in high school for better preparation.
3. High School prerequisite requirements for both Co-op and non Co-op programs are the same
4. Students applying Psychological & Health Science are recommended to have Biology and Mathematics, as it is a prerequisite for this program starting Fall 2022.
