Sciences: Statistics		
Sciences: Life Sciences	English, Advanced Functions, Biology, Chemistry	
Sciences: Physical & Environmental Sciences		
<ul style="list-style-type: none"> Astronomy & Astrophysics 	English, Advanced Functions, Calculus & Vectors, Physics	
<ul style="list-style-type: none"> Chemistry 		Chemistry (recommended)
<ul style="list-style-type: none"> Physical & Mathematical Science 		Chemistry (recommended)
<ul style="list-style-type: none"> Physics & Astrophysics 		
<ul style="list-style-type: none"> Physical Sciences 		Chemistry (recommended)
<ul style="list-style-type: none"> Environmental Physics 		Chemistry (recommended), Biology (recommended)
<ul style="list-style-type: none"> Biological Chemistry 		English, Advanced Functions, Calculus & Vectors, Biology
<ul style="list-style-type: none"> Environmental Chemistry 	Physics,	Chemistry (recommended)

UTSC Admissions Category (Co-op / Non Co-op)	Prerequisite Requirement (Senior 1 - Senior 3)	Note
<ul style="list-style-type: none"> Biochemistry 	English, Advanced Functions, Calculus & Vectors, Biology Physics,	Chemistry (recommended), Physics (recommended)
<ul style="list-style-type: none"> Environmental Biology 		Chemistry (recommended), Physics (recommended)
<ul style="list-style-type: none"> Environmental Geoscience 		Chemistry (recommended)
<ul style="list-style-type: none"> Environmental Science 		Chemistry (recommended), Physics (recommended)
<ul style="list-style-type: none"> Natural Sciences & Environmental Management 	English	
Sciences: Psychology & Health Studies	English	Biology (recommended), Advanced Functions, Calculus & Vectors or Mathematics of Data Management (recommended)
Business: Management	English, Advanced Functions, Calculus & Vectors	
Business: Management & International Business (Co-op Only)	English, Advanced Functions, Calculus & Vectors	Interview is required
Double Degree: BBA/BSc	English, Advanced Functions, Calculus & Vectors	Only open to current high school applicants (applicants with post-secondary studies not eligible)

Note:

1. Advanced Functions and Calculus & Vectors are High School Mathematics.
2. Life Science programs require high school Chemistry and Biology results.
3. Physical & Environmental Sciences programs do not require Chemistry results, but we encourage applicants to the Physical & Environmental Science program to take Chemistry in high school for better preparation.
4. High School prerequisites are the same requirements for both Co-op and non-Co-op programs.
