

Remove and re-add UofT wifi on a Mac

- 1) Open “**System Preferences**” and select “**Network**”
 - Click on the **Wi-Fi** option listed and then choose “**Advanced...**”

- 2) Find the “UofT” network listed under the Network Name and click on the “-” button to remove it. Click on OK to complete the process

- 3) [Join the UofT wifi network again](#)
