BUSINESS IS BORDERLESS AND SO IS OUR TALENT.

We’re equipping the next generation of leaders with the skills and experience to view business through a truly international lens. Founded on the University of Toronto’s reputation as one of the world’s top 20 universities, we offer our students a powerful combination of management fundamentals, international work experience, and exposure to leadership across cultures and borders. All in a four-year honours degree.

Unlike similar programs, our students must complete an international work term, in addition to a study-abroad term and two work terms in Canada. Our students are available for flexible full-time work term lengths, talk to us about your needs.

GLOBALLY MINDED. CULTURALLY SENSITIVE.

Students take at least one study term at a partner school placing them in close proximity to your local offices. The University of Toronto has formal agreements with 150 partner universities in 50 countries. Here are some of the popular student choice university partners.

- University of Mannheim
- Jean Moulin Lyon 3 University
- Hong Kong University
- National University of Singapore
- University College London
- Warwick University

Students have been outstanding contributors to our business by developing innovative solutions, demonstrating a willingness to learn, and collaborating with many cross-functional business partners. We’re thrilled that several of these students have chosen to kick start their full-time careers at Johnson & Johnson.

Students from the program have been highly motivated, personable and diligent team members. Fully integrated into our project teams just like any full-time team member and contributed to the project and client service results. Our project teams have enjoyed hosting guests from Canada. I would definitely recommend hiring interns from the program.
