Lecture 1, September 13th
- Change. The tutorials will in general have the same topic as the lecture the day before. Note that this is only a tentative.
- Academic integrity is one of the cornerstones of the University of Toronto. It is critically important. Academic Misconduct is illegal. Academic Misconduct at the University of Toronto includes, but is not limited to, the following:
- To provide unauthorized assistance to another student. This includes showing another student material covered in the lecture material covered in the tutorial.
- To obtain unauthorized assistance on any assignment. This would be a serious academic offense.
- To alter your marks, i.e. to commit plagiarism.
- To use unauthorized resources in an exam.
- To use unauthorized resources in a tutorial.
- To to hire someone to do your assignments in your place. Do not hire someone to do your assignments. Do not hire someone to do your assignments.
- If you work together with another student, each of you must submit the assignment individually. During that submission, you must sign a declaration which acknowledges your participation and that you have worked independently. Both are free for you to use.
- As a student you must acknowledge the academic integrity policy. You will have to acknowledge it before submitting any assignments.
- Academic Misconduct Policy, Nordean College.
- You will need a need a microphone and webcam for the tutorials and the oral exam. Make sure your are able to share your work on a jupyter notebook at the same time. You will need to run code using python, jupyter notebooks, numpy, scipy, and matplotlib. Both are free for you to use.
- You will need a need a microphone and webcam for the tutorials and the oral exam. Make sure your are able to share your work on a jupyter notebook at the same time. You will need to run code using python, jupyter notebooks, numpy, scipy, and matplotlib. Both are free for you to use.
