Outline

Instructor: Mandy Meriano
Office: EV362  Telephone: 416-208-2775
Online office hours: Thursday: 10am – 12pm
Email: m.meriano@utoronto.ca

Lecture time: Monday 11am to 1pm
Location: MW160

Lecture on Monday September 12th, 11am-1pm will be Online (Synchronous):
Join Zoom Meeting
https://utoronto.zoom.us/j/81732077539
Meeting ID: 817 3207 7539
Passcode: 960073

Office hours: Thursday 10am-12pm
Join Zoom Meeting
https://utoronto.zoom.us/j/87446291929
Meeting ID: 874 4629 1929
Passcode: 005291

Notice of video recording and sharing (Download and re-use prohibited)
This course, including your participation, will be recorded on video and will be available to students in the course for viewing remotely and after each session.

Course videos and materials belong to your instructor, the University, and/or other sources depending on the specific facts of each situation, and are protected by copyright. Do not download, copy, or share any course or student materials or videos without the explicit permission of the instructor.

For questions about recording and use of videos in which you appear please contact your instructor.

Practical times: Wednesday 09:00 – 11:00; 11:00 – 13:00; 13:00 – 15:00; 15:00 – 17:00
Location: EV224 (Chem and Env Sci Building) and computer lab (location TBA)
Field component of the practicals will be carried out in Highland Creek
Emphasis is placed on practical work in this course, which will involve some time commitment. However, this is reflected positively in your final grade.

Teaching Assistants: Sayuri Sagisaka Mendez, Cheng Peng
Office and office hours: TBA on Quercus
Lab coordinators: Chai Chen and Tom Meulendyka, EV304 and EV225

DESCRIPTION: The earth's surface form and its dynamic behavior at range of spatial and temporal scales is an integral part of the physical, biological and human environment. It is strongly influenced by human activity, while at the same time imposing severe constraints upon that activity. The study of the earth's surface forms and their morphodynamic behavior, both naturally and under the impact of human habitation, is the field of Geomorphology. It is the human interaction with the surface of the earth that gives rise to a number of environmental concerns: e.g., surface erosion, catastrophic floods, sea-level rise, landslides, water resources and water extraction, etc. This introductory course combines aspects of geology, climatology, hydrology, and soil science to present a coherent introduction to the surface of the Earth, with emphasis on both fundamental concepts and practical applications, as a basis for understanding and intelligent management of the Earth's physical and chemical environment.

LEARNING OBJECTIVES: By the end of the course students will have developed a coherent understanding of the various aspects of geology, climatology, hydrology, and soil science that shape the surface of the Earth, with emphasis on both fundamental concepts and practical applications, as a basis for understanding and intelligent management of the Earth's physical and chemical environment.

MARKING SCHEME (tentative): Four practicals; value 40% (4 x 10%); a midterm exam: value 25%; and a final exam: value 35%.
### Evaluation Components

*The midterm exam is based on material covered in lectures and readings up to and including the class before the midterm exam. Readings will be from your course textbook: Bierman and Montgomery (2020). The format is multiple choice and short answer questions.

**The final exam will be based on all term material (including readings and lectures). Readings will be from your course textbook: Bierman and Montgomery (2020). The format is multiple choice and short answer questions.

### TENTATIVE LECTURES

**Week 1: September 12**  
Earth’s Dynamic Surface  
*Textbook readings: Ch 1*

**Week 2: September 19**  
Earth’s Solid Materials and Weathering  
*Textbook readings: Ch 5,6*

**Week 3: September 26**  
Topography: Channels and Drainage Basins  
*Textbook readings: Ch 3*

**Week 4: October 03**  
Geomorphic Hydrology (Part I)  
*Textbook readings: Ch 4,8,9*

---------- **October 10**  
Reading Week

**Week 5: October 17**  
Geomorphic Hydrology (Part II)  
*Textbook readings: Ch 4,8,9*

**Week 6: October 24**  
Mid-term exam held during class time

**Week 7: October 31**  
Groundwater  
*Textbook readings: Ch 4*

**Week 8: November 07**  
Glaciers  
*Textbook readings: Ch 13*
Week 9: November 14  Landscape Evolution  
*Textbook readings: Ch 2,12,15,16*

Week 10: November 21  Coastal Geomorphology  
*Textbook readings: Ch 10*

Week 11: November 28  Deserts: Wind as a Geomorphic Agent  
*Textbook readings: Ch 11*

Week 12: Dec 05  TBA (generally some lectures run into a 2nd week – this lecture time will allow us to fully complete all the above noted topics)

PLAGIARISM: Assignments are checked for plagiarism. Please consult the University Calendar for a discussion and outline of the policy on plagiarism and academic integrity (also see proceeding section below). The sanctions can be severe. If, after reviewing the University policy, you are uncertain about what constitutes plagiarism, talk to your course instructor.

ACADEMIC INTEGRITY: Academic integrity is essential to the pursuit of learning and scholarship in a university, and to ensuring that a degree from the University of Toronto is a strong signal of each student’s individual academic achievement. As a result, the University treats cases of cheating and plagiarism very seriously. The University of Toronto’s Code of Behaviour on Academic Matters ([http://www.governingcouncil.utoronto.ca/policies/behaveac.htm](http://www.governingcouncil.utoronto.ca/policies/behaveac.htm)) outlines the behaviours that constitute academic dishonesty and the processes for addressing academic offences. Potential offences include, but are not limited to:

In papers and assignments:

- Using someone else’s ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course without the permission of the instructor.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment.

On tests and exams:

- Using or possessing unauthorized aids.
- Looking at someone else’s answers during an exam or test.
- Misrepresenting your identity.

In academic work:

- Falsifying institutional documents or grades.
- Falsifying or altering any documentation required by the University, including (but not limited to) doctor’s notes.
All suspected cases of academic dishonesty will be investigated following procedures outlined in the Code of Behaviour on Academic Matters. If you have questions or concerns about what constitutes appropriate academic behaviour or appropriate research and citation methods, you are expected to seek out additional information on academic integrity from your instructor or from other institutional resources (see http://www.utoronto.ca/academicintegrity/).

Please consult the University Calendar for information about grade distribution and academic conduct.

**ABSENCES:** If you need to miss a practical or term test for any legitimate reason, you must submit appropriate documentation within three business days of your absence. If the reason for your absence is medical, an official UTSC medical note must completed by a doctor who examined you while you were ill/injured (i.e. not after the fact). The medical note can be downloaded at: http://www.utsc.utoronto.ca/~registrar/resources/pdf_general/UTSCmedicalcertificate.pdf. Note that conditions ranked as mild or negligible will not be considered a valid excuse.

**MISSED TERM WORK:** If a legitimate reason prevents you from submitting a piece of term work by its posted deadline, you must submit appropriate documentation within three business days of your absence. If the reason is medical, an official UTSC medical note must completed by a doctor who examined you while you were ill/injured (i.e. not after the fact). The medical note can be downloaded at: http://www.utsc.utoronto.ca/~registrar/resources/pdf_general/UTSCmedicalcertificate.pdf. Note that conditions ranked as mild or negligible will not be considered a valid excuse.

**HANDING IN ASSIGNMENT:** You are responsible for making sure that your TA receives your work. Students who mail assignments in, place work on the floor outside an office, or slip assignments under a door, do so at their own risk.

**LOST OR MISPLACED ASSIGNMENT:** It is your responsibility to keep a photocopy of your work, and to make more than one copy of your work. Excuses are not accepted in the case of lost or misplaced work.

**LATE ASSIGNMENTS:** The penalty for late submission is 10% per day.

**ACCESSABILITY:** Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodation, please feel free to approach me and/or the AccessAbility Services Office as soon as possible. I will work with you and AccessAbility Services to ensure you can achieve your learning goals in this course. Enquiries are confidential. The UTSC AccessAbility Services staff (located in S302) are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations (416) 287-7560 or ability@utsc.utoronto.ca.

Students are encouraged to review the Calendar for information regarding all services available on campus.
