

Office of the Chair and Graduate Chair

DPES 2011-11 Environmental Science Search Committee

From: William A. Gough, Chair, DPES

Date: March 18, 2011

The Dean has approved the following composition of the search committee for the Environmental Science position in chemical exposure and risk assessment at the Assistant Professor level. The job ad which is appended to this memo has been posted on the DPES webpage and appropriate places elsewhere with a closing date of April 29th, 2011. I anticipate that the interviewing will take place in May with the earliest start date for the successful candidate of July 1, 2011.

Professor Roberta Fulthorpe, DPES

Professor George Arhonditsis, DPES

Dr. Mandy Meriano, DPES

Professor Myrna Simpson, DPES

Professor Miriam Diamond, Geography

Dean's Assessor (TBA)

ASSISTANT PROFESSOR in Environmental Science

The Department of Physical & Environmental Sciences at the University of Toronto Scarborough invites applications for a tenure stream position in chemical exposure and risk assessment at the rank of Assistant Professor commencing July 1, 2011. The successful candidate will be expected to establish a strong, independent, creative and innovative externally funded research program in the general area of chemical exposure and risk assessment and is expected to establish partnerships with industry, government and non-governmental organizations. He or she will play an active role in our undergraduate and graduate programs in Environmental Science by providing training in environmental and regulatory toxicology, and ecological and human exposure and risk assessment. This position will have undergraduate teaching responsibilities in environmental science. The successful candidate will also be appointed to UTSC Graduate Department of Physical and Environmental Sciences.

Applicants must hold a PhD in Environmental Science or a related discipline, have post-doctoral experience and have demonstrated excellence in teaching and research. We are particularly interested in applicants with interdisciplinary research interests that complement and enhance the existing strengths in the Department in the areas of environmental science and biological chemistry.

Information about the Department can be found at:

<http://www.utsc.utoronto.ca/~physsci/>

Applications will be accepted until **April 29, 2011**. Applicants are asked to send a letter of application including a full curriculum vitae, a five page summary of research contributions to date, a concise plan for future research directions, and a short teaching dossier that outlines the candidate's teaching experience, subject areas of teaching expertise, and goals for course delivery and curriculum development. Applicants should provide a list of three persons who can be contacted by the search committee for a letter of reference once the short list of candidates is established. All application materials must be received by the application deadline.

Please access the application website via

<https://utoronto.taleo.net/careersection/10050/moresearch.ftl?lang=en>

Submit your application online by accessing the link provided. We encourage applicants to submit PDF or MS Word documents in one or two smaller files.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents of Canada will be given priority.
