

## **EESC04 – Biodiversity and Biogeography Fall 2018**

**Instructor:** Prof. Adam Martin (adam.martin@utoronto.ca), Room EV 464, office hours Monday 2-4pm throughout the semester.

**Teaching assistants:** Felicity Ni (felicity.ni@utoronto.ca),  
Carlos Arnillas (carlosalberto.arnillas@gmail.com).

**Lectures:** Tuesdays 5-7pm, Room IC 212

**Practicals:** Fridays, 9-11am **OR** 11am-1pm **OR** 1-3pm in EV 224 (see schedule below)

**Recommended course reading:** Biogeography: An Ecological and Evolutionary Approach (8<sup>th</sup> edition). 2010. C. Barry Cox & Peter D. Moore.

### **Course description:**

Biogeography is the study of the geographic distribution of species, and biodiversity is the study of species richness and relative species abundance. Through lectures and labs, this course explores the origin, maintenance, and loss of biodiversity, from a biogeographic perspective. The course aims to provide students with a broader understanding of what constitutes biodiversity, how it has come to be, and what geographic factors help explain and drive the patterns observed today.

The course begins by examining the state of the world's biodiversity, and covers topics that include i) the major biomes of the world (marine and terrestrial), ii) geologic time scales, iii) continental drift, iv) dispersal, v) abundance and rarity, vi) comparison of biota on continents and islands, and vii) the fundamental influence of climate on biodiversity. Important biological processes discussed in this course include adaptation, speciation, colonization, and extinction. The course concludes with discussion of the invasive role of humans in shaping modern biogeography.

**Course evaluation:**

<b>Course Item</b>	<b>Due Date</b>	<b>Percent</b>
Midterm exam	Oct. 16	20%
Lab 1 report	Oct. 19	25%
Lab 2 presentation	Nov. 23	10%
Lab 2 report	Nov. 30	15%
Final exam	Dec. 3	30%

**In-class content and schedule:**

<b>Week</b>	<b>Lecture</b>	<b>Lecture topic</b>	<b>During this week</b>
1	Sept. 4	Intro to biodiversity and biogeography	Lab 1
2	Sept. 11	Species concepts and species classification	Lab 2
3	Sept. 18	How many species are there in the world?	Lab 3
4	Sept. 25	Biodiversity measurements	Lab 4
5	Oct. 2	History of biogeography; the latitudinal diversity gradient	Lab 5
	<b>Oct. 9</b>	<b>Reading week</b>	
6	Oct. 16	Mid-term exam	Midterm exam (20%) Lab 1 Report due (25%)
7	Oct. 23	Biodiversity through geologic time Pt. 1	Lab 6
8	Oct. 30	Biodiversity through geologic time Pt. 2	Lab 7
9	Nov. 6	Biomes of the world	Lab 8
10	Nov. 13	Island biogeography	Lab 9
11	Nov. 20	The Anthropocene and extinction	Lab 10 Lab 2 presentations (10%)
12	Nov. 27	Course review	Lab 2 report (15%)

**Practical schedule:**

<b>Lab number</b>	<b>Lab date</b>	<b>Lab topic</b>	<b>During this week in the lab</b>
1	Sept. 7	Biodiversity Part 1: Field work	Lab 1 report assigned
2	Sept. 14	Biodiversity Part 2: Species identification	
3	Sept. 21	Biodiversity Part 3: Species identification (cont.)	
4	Sept. 28	Biodiversity Part 4: Species identification (cont.)	
5	Oct. 5	Biodiversity Part 5: Data analysis, report preparation	
	<b>Oct. 12</b>	<b>Reading week</b>	Netflix and/or Crave TV (0%)
	Oct. 19	No practicals	Lab 1 report due (25%)
6	Oct. 26	Biogeography Part 1	Lab 2 report/ presentation assigned
7	Nov. 2	Biogeography Part 2	
8	Nov. 9	Biogeography Part 3	
9	Nov. 16	Biogeography Part 4	
10	Nov. 23	Biogeography Part 5: Presentations	Lab 2 presentations (10%)
	Nov. 30	No practicals	Lab 2 report (15%)

## Notes on exams

Both the midterm and final exam will draw from lecture and practical materials and includes lecture notes, and any material presented in the classroom that may or may not be posted on Blackboard. Information from the textbook and other resources not directly covered in class or in the practicals will not be tested on exams.

**Midterm test:** A mid-term test will be held in class on **Tuesday October 16th**. The test will consist of multiple-choice, short answer questions, and some calculations. It will be worth 20% of your final grade. If you miss the test for a verifiable reason (as indicated by a doctor's note), a single sitting of a make-up midterm exam will be offered.

**Final Exam:** A comprehensive final exam covering the entire course material will be given during UTSC examination period worth 30% of your final grade.

## Course policies – written assignments

**Formatting:** Coursework must be word-processed, 1.5-spaced, 12-point font size. Assignments must include a list of all references cited in the text, using the APA citation style. There is no need **to use a cover page** for any written assignments.

**Submission guidelines:** All assignments must be handed in **hard copy in class** on the specified due date.

**Late assignments:** Late assignments must be placed in the dropbox on the 2nd floor of Environmental Science Building. Any work submitted after 4:30 PM will be counted as received on the following business day (including weekends).

**Late penalties:** Work submitted late will be accepted with a **5% daily penalty (including weekend days) up to seven days** after the due date. Extensions after the due date will not be granted, unless supported by a verifiable medical certificate is provided (see: <http://www.illnessverification.utoronto.ca/>)

**Plagiarism:** Plagiarism is a serious academic offence. Please read the faculty's guidelines on plagiarism. Do not hesitate to consult with your instructor or TA about strategies that you can use to avoid being accused of plagiarism.

**Email contact, office hours, and communication:** The course instructor will send out important course information by email. Therefore all students are required to have a valid UTSC email address. You are also responsible for ensuring that your UTSC email address is set up and properly entered in the ROSI system.

That said my preference is to meet with you in person. I am more than happy, and encourage you, to set up meeting times. I am certainly open to discussing with you lecture material, the nature of the exams, the Environmental Science program at UTSC, graduate

school, career interests, and/ or the state of the world in general. I will make time for you and your interests – please take advantage of it. My door is open.

You may also email me questions about course material. I will make an effort to respond to you within 24 hours during weekdays. My responses will take longer during weekends because I deliberately remain offline. **Email should not be a substitute to office appointments.**

**Course website – Quercus:** EESC04 uses Quercus as its course website. To access the EESC04 website go to the U of T portal login page at <http://toolboxrenewal.utoronto.ca/>, and log in using your UTORid and password. Once you have logged in to the portal, look for your course modules where you'll find the link to the EESC04 course website.

**Class conduct:** This is a small class. I remind you that cell phones and other communication devices must be turned off or in silent mode. A 10-minute break in the middle of lecture sessions will be provided. Taking photos, audio and/or video recordings are not allowed unless permission from the instructor is granted.

**Accessibility Statement:** Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodation, please feel free to approach me and/or Accessibility Services Office as soon as possible. I will work with you and Accessibility Services to ensure you can achieve your learning goals in this course. Enquiries are confidential. The UTSC Accessibility Services staff (located in S302) is available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations (416-287-7560 or [ability@utsc.utoronto.ca](mailto:ability@utsc.utoronto.ca)).

**The Writing Centre:** The Writing Centre is a free service that provides support for teaching and learning through writing for all UTSC students. The Writing Centre provides service such as one-on-one consultation, drop-in hours, English language development and writing clinics. They are located in AC 210, in the Academic Resource Centre.

**Health and Wellness Clinic:** The Health & Wellness Centre has trained health professionals to provide medical, nursing, counseling, health promotion, and education services to University of Toronto Scarborough students. Any student with a current student card and a valid health card can use our services. They are located in the Student Centre, UTSC, SL 270.
