Chair's Message...

Dear students and faculty,

As I cross the midway point of my term as Graduate Chair and Director of Clinical Training of our Department, I am pleased to look back at the successes we have shared this year and feel optimistic about the opportunities for the year ahead! In 2023, our students continued to exceed our expectations: they received highly competitive university, provincial, and federal awards, served the mental health needs of our local communities in clinical placements across the Greater Toronto Area, and secured highly sought after residencies throughout Canada. Our alumni continue to be exemplary ambassadors for our program—whether it is establishing an innovative new mental health clinic in the community or starting a tenure-track academic position in a university, our alumni embody the vision of our Department as ***“innovators in clinical science to advance research, training and practice”***.

Inspired by the University of Toronto Scarborough’s **Inclusive Excellence** strategic plan, I am thrilled to share the progress we have made this year toward embracing our Department’s values of **equity, diversity, and inclusivity**. Our Department introduced an application fee waiver program, reducing a financial barrier for many applicants to our program from underrepresented groups. To increase access to information about our program to applicants around the globe, we produced a series of informational videos about the training offered in our Department and featured the voices of our graduate students (the videos can be found on our [website](#)). We joined with the Graduate Department of Psychology to co-host a “Diversity Open House”, encouraging students to learn more about the range of psychology graduate training opportunities at the university. In September, we celebrated the **10-year anniversary of the establishment of our Department**, hosting a world-famous scholar in Muslim mental health, Rania Awaad, M.D., Clinical Associate Professor of Psychiatry at the Stanford University School of Medicine (read more about the event in this Year-in-Review). We also announced that our department will be the home for the Toronto Addis Ababa Academic Collaboration in Ethiopia. I would like to acknowledge the contributions of our inclusivity and admissions committees to these initiatives (and I look forward to announcing additional exciting activities in the months ahead)!

Chair's Message continued...

As we mark the 10-year anniversary of our Department, I would like to extend my thanks to all members of the training community for supporting the establishment and continuing success of the Department of Psychological Clinical Science! As we celebrate this momentous occasion, I invite everyone to reflect on the individual contributions each one of us can make to continue fostering a welcoming, collaborative, energetic, and innovative training environment, as we strive toward achieving our Department's ambitious goals in the years ahead. I feel honoured to be leading our Department as we cross this significant milestone!

Warm regards,

Anthony C. Ruocco, Ph.D., C.Psych
Professor, Graduate Chair and Director of Clinical Training

Clinical Psychology Faculty

R. Michael Bagby, Ph.D.,
ABAP,
C.Psych.
Professor

Jessica Dere,

Sandra Yuen, Ph.D., C.Psych

PROFESSOR R. MICHAEL BAGBY

In this academic year Professor Bagby welcomed into his lab Dr. Tochukukwu “Charles” Ojiakor as a post-doctoral fellow.

Dr. Ojiakor received his Ph.D. from the University of Nigeria, Nsukka and is received a two-year post-doctoral fellowship from the University of Toronto Scarborough to work with Professor Bagby in exploring the effects of Black racialization in North America on the measurement of personality psychopathology.

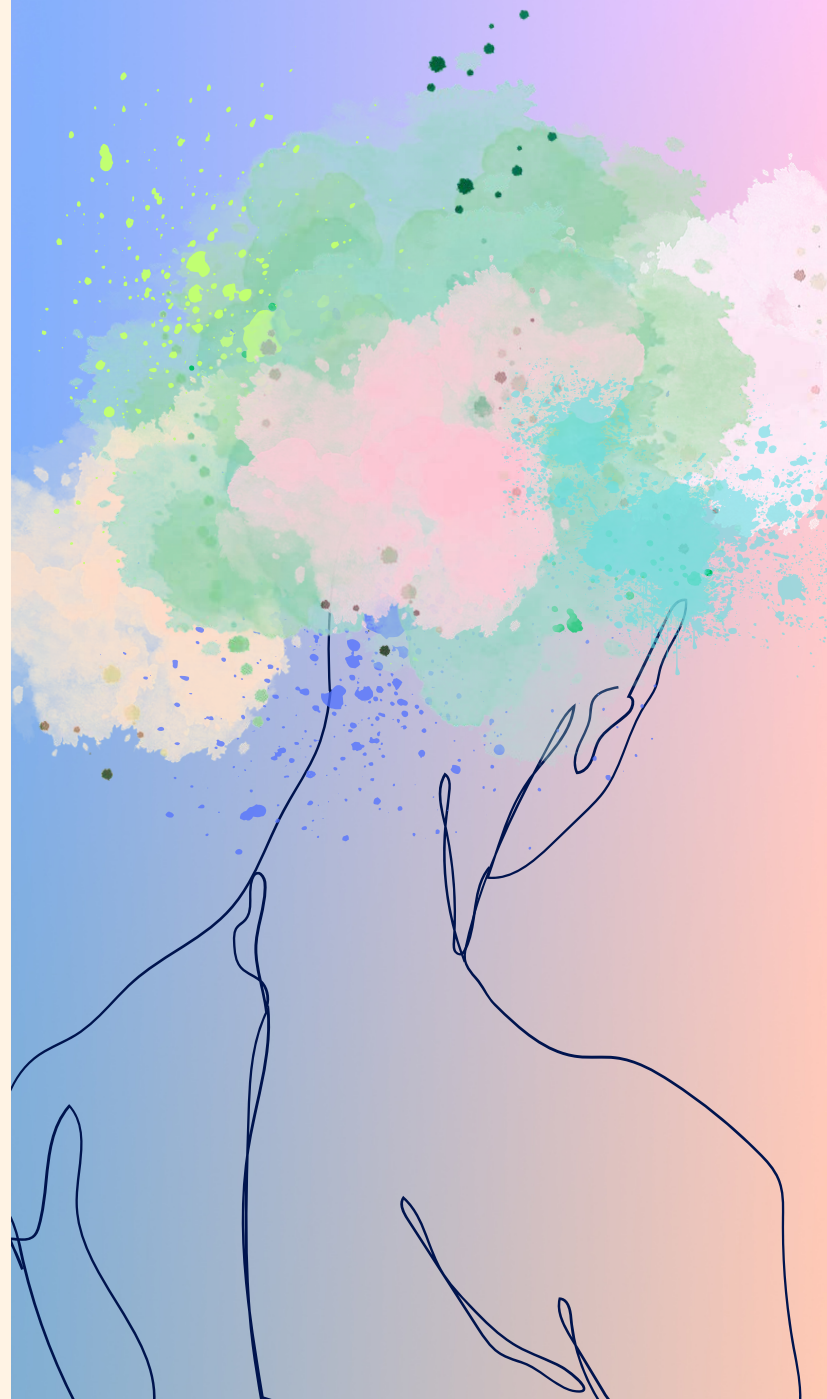

PROFESSOR MICHAEL BEST

Professor Best is currently leading a clinical trial examining the efficacy of combined cognitive remediation and cognitive behavioural therapy for schizophrenia, which represents one of the largest psychological intervention trials to ever be conducted for schizophrenia. Professor Best has trained over 60 clinicians in CBTp and CR across Ontario in the past year as part of this study. Professor Best was also awarded a SSHRC Insight Development Grant to examine reasons why individuals with schizophrenia face social exclusion and how this impedes recovery.

PROFESSOR JESSICA DERE

Professor Dere co-presented a talk at the annual convention of the Canadian Psychological Association that took place in June, titled Recommendations and guidelines for establishing and maintaining co-supervision arrangements in graduate level psychology training. This talk was part of a symposium organized by the CCPPP Working Group Against Racism and Discrimination in Canadian Psychology Training and Practice, of which Dr. Dere has been a member since 2020.

Faculty Highlights

Faculty Highlights

(cont.,)

PROFESSOR VINA GOGHARI

Professor Goghari is a recipient of the University of Minnesota, College of Liberal Arts (CLA), Alumni of Notable Achievement Award, which celebrates and honors the significant achievements and contributions of alumni. She also became a Fellow of the Association for Psychological Science, which is awarded for sustained outstanding contributions to the science of psychology in the areas of research, teaching, service, and/or application.

PROFESSOR ANTHONY C. RUOCCO

Professor Ruocco's research on magnetic seizure therapy was recently published in the inaugural issue of *Nature Mental Health* and featured in an article published by the Brain & Behavior Research Foundation and in a news article from the University of Toronto. He was also awarded a new research grant from the University of Toronto's Inlight Student Mental Health Research Initiative.

PROFESSOR ZINDEL SEGAL

Professor Segal led a 5 day Mindfulness Based Cognitive Therapy training workshop in French at Crêt-Berard – Christian Retreat Centre in Puidoux, Switzerland. Days started at 7am and ended at 8pm, with periods of meditation, silence, clinical training and supervision. He also published a paper showing that the mediators of change in online Mindfulness Based Cognitive Therapy are similar to those when the intervention is delivered in person – decentering, mindfulness and rumination. Dimidjian et al. (2023). *J Consult Clin Psychol.* 91:496-502.

PROFESSOR ANDREW COOPER

Professor Cooper was a 2023 nominee for the tricampus Early Career Teaching Award, and began his sabbatical in July 2023.

PROFESSOR AMANDA ULIASZEK

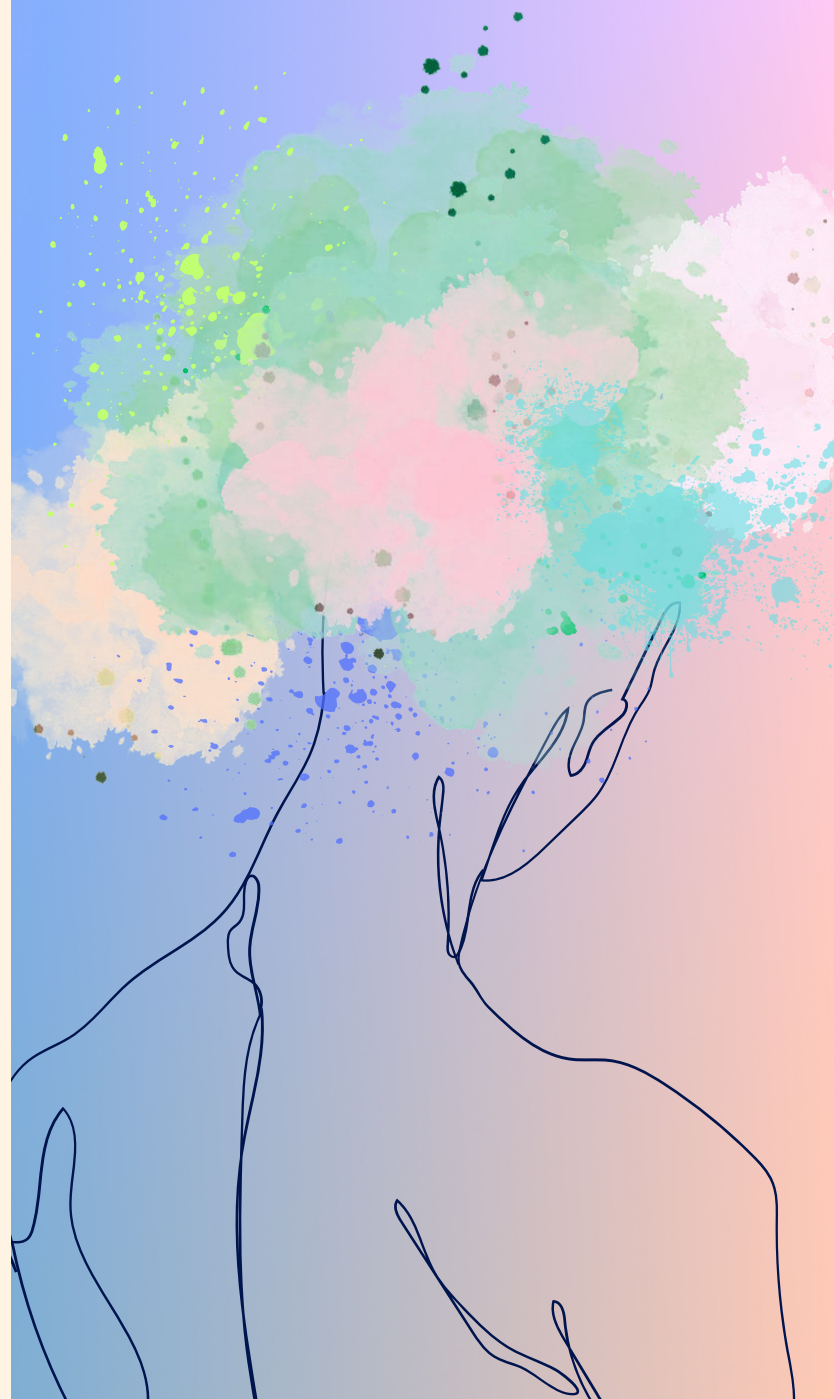

Professor Uliaszek continues her work as an advocate and researcher for postsecondary student mental health. She received a \$30,000 Inlight grant to explore the intersectionality in students with disabilities. In addition, she was the faculty lead for the International Student Mental Health Summer Research Institute, which brought together students and faculty from Canada, Taiwan, Australia, and the UK to drive innovative research solutions to the worldwide student mental health crisis. This Institute was funded by a Connaught Global Challenge Research Program and Connaught Global Research Impact Program.

PROFESSOR KONSTANTINE ZAKZANIS

In 2023, Professor Zakzanis was awarded a 5-year \$90,000 MITACS research award as the sole principal investigator to examine the relationship between Diversity and the Validity of Test Findings in Neuropsychological Practice. Professor Zakzanis also remains as the standing President for the Canadian Society for Medical Evaluators, a non-profit organization and is the first Psychologist (non-physician) to hold this title where he continues to actively direct multiple certification programs for clinicians.

Faculty Highlights

Clinical Psychology Students

MASTERS

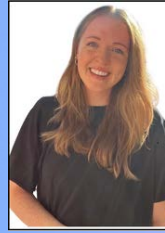

Sana Junaid, MA1
Supervisors: Lena Quilty & Anthony Ruocco
Research: *cognition, substance use disorders, decision making, digital mental health*

Tyler Brown, MA2
Supervisor: Konstantine Zakzanis
Research: *neuropsychology, substance use disorder, abstinence, functional impairment*

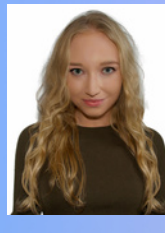

Sanghamithra Ramani, MA1
Supervisor: Konstantine Zakzanis
Research: *neuropsychology, traumatic brain injury, litigation, diversity*

Danielle Downie, MA2
Supervisors: Lena Quilty & Anthony Ruocco
Research: *substance use and addictions, risk factors for substance use, online substance use interventions*

Daria Sandra, MA1
Supervisors: Michael Inzlicht & Zindel Segal
Research: *mental health awareness, expectations, nocebo effects*

Sarah Mullin, MA2
Supervisors: Jennifer Rabin & Konstantine Zakzanis
Research: *neuromodulation, neuropsychological assessment, movement disorder, substance use disorder*

Katie Vandello, MA1
Supervisors: Jennifer Rabin & Konstantine Zakzanis
Research: *neurocognition, mood disorder, diversity, neuroimaging, machine learning*

Etinosa Oliogu, MA2
Supervisor: Anthony Ruocco
Research: *neurocognition, dimensional psychopathology, and self-harm lethality*

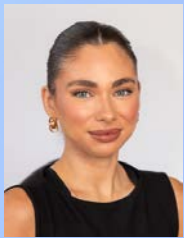

Maya Ahia, MA2
Supervisor: Amanda Uliaszek
Research: *student mental health research, intersectionality, disability studies*

Aqsa Zahid, MA2
Supervisor: Michael Best
Research: *schizophrenia, stigma, culture, religion*

Clinical Psychology Students

DOCTORAL

Maya Amestoy, PhD1
Supervisor: Amanda Uliaszek
Research: *borderline personality disorder, stigma, emotion dysregulation*

Shreya Jagtap, PhD2
Supervisors: Cory Gerritsen & Michael Best
Research: *psychosis, delusions, affect, aggression/violence*

Jessica D'Arcey, PhD1
Supervisor: Michael Best
Research: *recovery in psychosis, understanding mechanisms of psychosis, digital mental health*

Talia Leibovitz, PhD2
Supervisor: Michael Best
Research: *psychosis, CBTp, interventions*

Orly Lipsitz, PhD1
Supervisor: Anthony Ruocco & Joshua Rosenblat
Research: *psychopathology, neurocognition, functional disability*

Danika Quesnel, PhD2
Supervisors: Catherine Sabiston & Amanda Uliaszek
Research: *eating disorders, physical activity and mental health, health promotion, novel treatment interventions, knowledge translation*

Melanie Mascarenhas, PhD1
Supervisors: Konstantine Zakzanis & Zindel Segal
Research: *neuropsychology, traumatic brain injury, mindfulness, functional impairment, performance validity*

Willem Le Duc, PhD3
Supervisors: Andy Lee & Anthony Ruocco
Research: *approach-avoidance conflict, hippocampus, lesions, memory, decision-making*

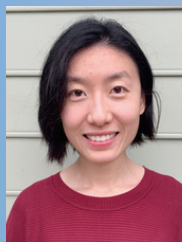

Cody Cane, PhD2
Supervisors: Anthony Ruocco & Andy Lee
Research: *psychopathology, neuroimaging, HiTOP*

Sylvia Romanowska, PhD3
Supervisor: Michael Best
Research: *psychosis, neurocognition, intervention*

Sabrina Adamo, PhD2
Supervisors: Melanie Cohn & Anthony Ruocco
Research: *Parkinson's disease, Cholinergic burden, cognitive decline, quality of life*

Zoey Zuo, PhD3
Supervisors: Zindel Segal & Norman Farb
Research: *cognitive distortion, rumination, wellbeing, natural language processing, mobile mental health support*

Clinical Psychology Students

DOCTORAL

Robert Aidelbaum, PhD4
Supervisor: Michael Best
Research: *social motivation, social cognition, social functioning, psychosis, personal recovery*

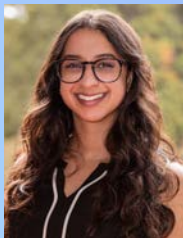

Nicole Cosentino, PhD5
Supervisors: Marc Fournier & Amanda Uliaszek
Research: *personality coherence, interpersonal functioning, authenticity*

Daniel Krzyzanowski, PhD4
Supervisors: Gary Remington & Vina Goghari
Research: *schizophrenia, values, subjective well-being, happiness, lifespan development*

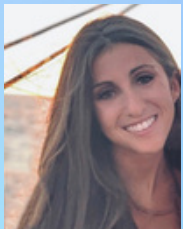

Tahira Gulamani, PhD5
Supervisor: Amanda Uliaszek
Research: *emotion regulation, impulsivity, dialectical behaviour therapy, treatment mechanisms*

Alina Patel, PhD4
Supervisors: Lena Quilty & Zindel Segal
Research: *repetitive negative thinking, mindfulness, depression, anxiety*

Jacob Koudys, PhD5
Supervisors: Anthony Ruocco & Cendri Hutcherson
Research: *suicide, transdiagnostic psychopathology, decision making, impulsivity*

Sarah Saperia, PhD4
Supervisors: Konstantine Zakzanis & George Foussias
Research: *schizophrenia-spectrum disorders, negative symptoms, motivation deficits, treatment targets*

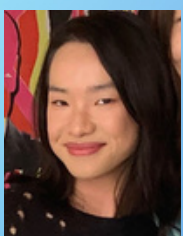

Kevin Hamdullahpur, PhD6
Supervisor: Amanda Uliaszek
Research: *borderline personality disorder, emotion dysregulation, cannabis use*

Ivy Cho, PhD5
Supervisor: Vina Goghari
Research: *cognitive control, healthy aging, mood disorders*

Laura Heath, PhD6
Supervisors: Robin Green & Amanda Uliaszek
Research: *traumatic brain injury, neuropsychology, rehabilitation*

Sonja Chu, PhD5
Supervisors: Andy Lee & Vina Goghari
Research: *fMRI, approach-avoidance conflict, anxiety*

MASTER OF ARTS

Maya Amestoy

Supervisor: Amanda Uliaszek

Thesis: *Exploring the Existence and Impact of Borderline Personality Disorder Stigma in the General Population*

Jessica D'Arcey

Supervisor: Michael Best

Thesis: *The Role of Schema Change and Permeability in Cognitive Models of Schizophrenia Spectrum Disorders*

Orly Lipsitz

Supervisor: Anthony Ruocco

Thesis: *Uncovering General and Specific Relationships Between Psychopathology and Neurocognition: A Hierarchical, Dimensional Approach Using Latent Variable Models*

Melanie Mascarenhas

Supervisors: Konstantine Zakzanis & Zindel Segal

Thesis: *The Relationship Between Dispositional Mindfulness and Psychological, Cognitive, and Functional Outcomes Following Mild Traumatic Brain Injury*

DOCTOR OF PHILOSOPHY

Thulasi Thiruchselvam

Supervisors: Lena Quilty & Michael Bagby

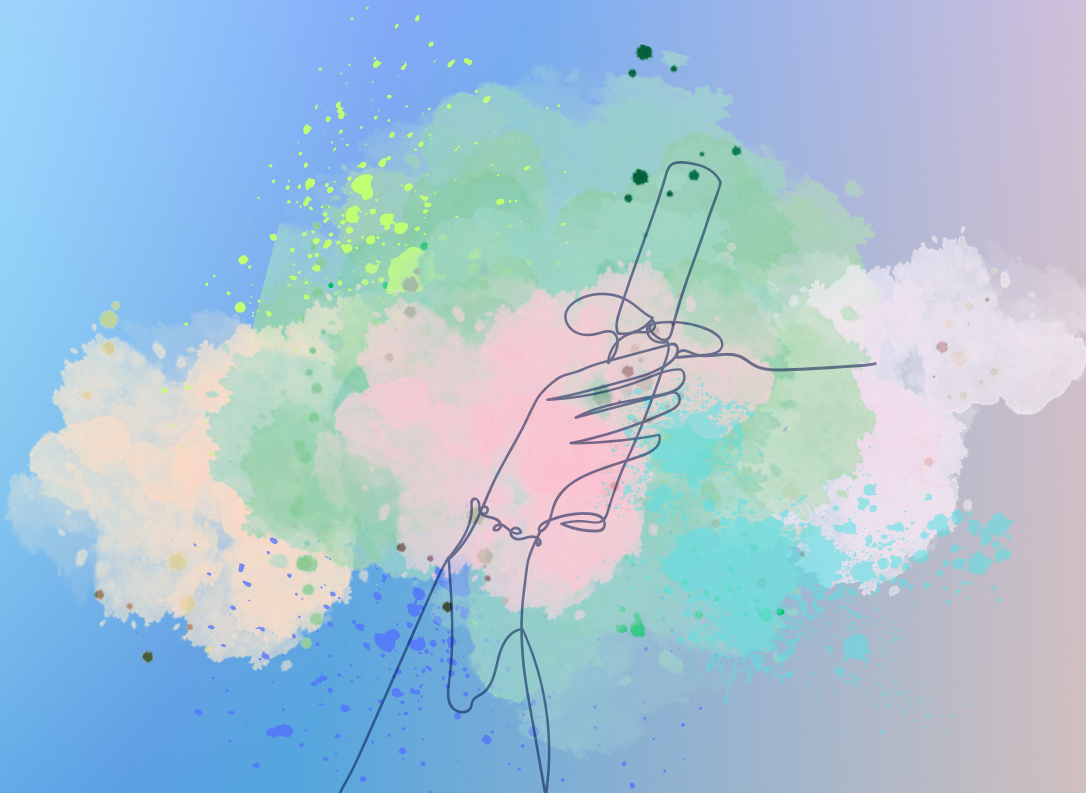

Dissertation: *Stress and Reward Function in Concurrent Depression and Chronic Cannabis Use*

Kathleen Walsh

Supervisors: Norman Farb & Zindel Segal

Dissertation: *Development of a Perspective Switching Task to Train Decentering*

Alumni Spotlights

Dr. Amanda Ferguson
Class of 2022

Dr. Amanda Ferguson was offered a Junior Research Fellowship at Darwin College, University of Cambridge. This prestigious position is awarded to select early-stage academics who are conducting excellent research and will allow Dr. Ferguson to join the college as a member of the Governing Body. In this role, Dr. Ferguson will be using basic and applied methods to investigate how technology amplifies mental health risk and resilience across development. Despite the pervasive influence of technology in everyday life and growing concern that this is negatively impacting young people, research has failed to produce robust and actionable findings for the public. Dr. Ferguson's program of research takes a novel mechanistic approach to investigate phenomenological and cognitive mechanisms underlying the impact of digital technology on mental health.

Dr. Achala Rodrigo
Class of 2022

Dr. Achala Rodrigo joined York University as an Assistant Professor in the Department of Psychology, in the area of Clinical Neuroscience and Neuropsychology. Using a multi-method approach that combines traditional neuropsychological assessment and novel neuroimaging techniques, his program of research examines the complex relationship between higher-order aspects of cognition and clinically relevant behavioural outcomes. His research also aims to elucidate mechanisms through which psychological distress may negatively impact cognitive function, and in turn lead to maladaptive behaviour.

Alumni Spotlights

Dr. Katherine Gardhouse
Class of 2020

After graduating from UTSC's Clinical Psychology program, Dr. Katherine Gardhouse and Dr. Tara Galnick founded a mental health centre called eFIT Institute. The centre incorporates psychological, physical, and social aspects of health, and is the first in Canada to subscribe to a membership-based model of mental health care.

Members enrolled in the centre participate in an individually tailored, systematic, and evidence-based group psychotherapy program. Members are first enrolled in a group where they learn to deeply understand their case conceptualizations and to apply this understanding in their every day lives. The group is not psychoeducational, but is process-oriented and experiential in nature, primarily following an Emotion Focused Therapy paradigm. Members graduate from this group when they have deeply integrated their case conceptualizations into their understanding of their experiences, and regularly identify: (1) their secondary emotions (and automatic thoughts connected to them); (2) their underlying primary emotions (and core beliefs connected to them); and (3) the traumatic experiences in their life histories leading to their primary emotions at the core of their case conceptualizations. Members then enter a trauma and emotion-focused processing group, where time is spent helping them emotionally process the painful experiences they endured lying at the root of their ongoing difficulties.

Dr. Tara Galnick
Class of 2022

Given that trauma and emotional pain often manifest physically in the body, members are also offered daily in-person classes to help them develop a sense of awareness of their bodily stress, and recalibrate their autonomic nervous systems to reduce dysregulation and increase parasympathetic tone. Members also work with our psychologists and dietitians to develop a customized nutrition plan. It is of note that eFIT Institute will be accepting practicum students, who will have an opportunity to conduct individual therapy (using an integrative therapeutic approach, drawing from Emotion Focused Therapy, Cognitive-Behavioural Therapy, and Dialectical Behaviour Therapy) and to co-facilitate aforementioned groups (which draw primarily from Emotion Focused Therapy). Practicum students will have an opportunity to work with clients experiencing complex presentations, struggling with a broad range of difficulties. Feel free to contact Drs. Katherine Gardhouse (katherinegardhouse@efit.institute) and Tara Galnick (taragalnick@efit.institute) if you're interested!

Alumni Spotlights

Dr. Nadia Al-Dajani
Class of 2020

Dr. Al-Dajani recently accepted a position as Assistant Professor in the Department of Psychological and Brain Sciences at the University of Louisville. There, she will continue to focus on examining short-term risk and protective factors of suicidal thoughts in youth and young adults. She will extend her work by focusing on unique stressors faced by minoritized populations which could explain the unprecedented rise in suicide deaths in these youth. She hopes her research will inform future prevention and intervention efforts, particularly those focused on momentary suicide risk. Dr. Al-Dajani was also recently awarded a young investigator award from the American Foundation for Suicide Prevention. This project seeks to improve prediction of momentary suicidal ideation by using multiple daily surveys to capture risk and protective factors that precede suicidal thoughts. Young adults between 18–25 years old who recently visited the emergency department due to suicide risk will be recruited for this study. Nonlinear dynamic statistical modeling using the cusp catastrophe model will be used to identify the compounding effect of multiple factors measured over time to improve suicide risk prediction. This project is carried out in collaboration with University of Cincinnati Health and under the mentorship of Dr. Cheryl King, University of Michigan.

10 Year Anniversary & 7TH ANNUAL DIVERSITY SPEAKER

The Graduate Department of Psychological Clinical Science celebrated our 10 year anniversary on September 8, 2023, with a luncheon at Miller Lash House. The luncheon was followed by the department's 7th Annual Invited Diversity Speaker Series with invited guest speaker Dr. Rania Awaad, a leading expert in Muslim mental health.

Opening Remarks from Professor Ruocco

Diversity Speaker: Dr. Rania Awaad

Guests at Miller Lash Tent

To the right of the 'T', the letters 'AAAC' are written in a clean, sans-serif font.

Collaboration

The Toronto Addis Ababa Academic Collaboration (TAAAC) assists Ethiopians in identifying and implementing solutions to some of their nation's most pressing challenges through training and education. GD-PCS is pleased to be a new partner with TAAAC.

Professor Bagby has recently taken on the role of representing the Clinical Psychology Program as part of the University of Toronto's broader academic collaboration with TAAAC.

Professor Bagby will be travelling to Addis Ababa University (AAU) in Spring 2024, where he will be teaching and supervising graduate students and faculty in the clinical psychology graduate program at AAU. He will also be working on developing the collaboration between the two programs.

2023 Funding Awarded

CORE CLINICAL PSYCHOLOGY FACULTY

This year, multiple faculty received new research grants. The department would like to recognize these faculty, as well as those faculty who currently hold grants awarded in previous years.

Michael Best

Principal Investigator

2023-2025

Examining the effects of diagnostic self-disclosure on stigma and social exclusion towards Individuals with mental illness

Social Sciences and Humanities Research Council **\$51,000**

Co-Investigator

2023-2025

Electric and physiological markers, underlying mechanisms and modulation of cognitive functioning and therapeutic improvement in response to tACS in combination with the usual pharmacological treatment in schizophrenia

Queen's University Department of Psychiatry **\$20,000**

Jessica Dere

2023-2024

Developing case study materials to augment student learning in Psychological Assessment: Drawing on graduate student expertise

Teaching Enhancement Grant, Centre for Teaching and Learning, UTSC **\$3,811**

2023 Funding Awarded (Cont.,)

CORE CLINICAL PSYCHOLOGY FACULTY

This year, multiple faculty received new research grants. The department would like to recognize these faculty, as well as those faculty who currently hold grants awarded in previous years.

Vina Goghari

Principal Investigator

2023

A psychometric exploration of anhedonia across the Schizophrenia spectrum

Research Competitiveness Fund, UTSC **\$10,000**

Co-Investigator

2022-2023

The cognitive profile of COVID-19: Longitudinal neuropsychological outcomes following infection

Canadian Institutes of Health Research **\$100,000**

Principal Investigator

2018-2023, 2023-2024

Dissociating proactive and reactive cognitive control processes

Natural Sciences and Engineering Research Council of Canada **\$145,000**

Anthony Ruocco

2023-2024

Principal Investigator

Capturing the diversity of student experience to enhance the validity of measures of mental health symptoms

Inlight Student Mental Health Research Initiative, University of Toronto **\$30,000**

2023 Funding Awarded *(Cont.,)*

CORE CLINICAL PSYCHOLOGY FACULTY

This year, multiple faculty received new research grants. The department would like to recognize these faculty, as well as those faculty who currently hold grants awarded in previous years.

Amanda Uliaszek

Principal Applicant

2023-2024

The Intersection of mental wellness and disability services in the postsecondary setting

Inlight Student Mental Health Research **\$30,000**

Co-Applicant

2023-2027

Fidelity and skill use in cognitive behavioural therapy for adolescents with depression

Canadian Institutes of Health Research Catalyst Grant **\$177,092**

Konstantine Zakzanis

2023-2028

Sole Principal Investigator

Examining the relationship between diversity and the validity of test findings in neuropsychological practice

MITACS Research Award **\$90,000**

Total Faculty Funding: \$626,903

To be presented at the 57th Annual Association for Behavioral and Cognitive Therapies (ABCT) Convention, Seattle, WA.

Brown, T., Mascarenhas, M., Zakzanis, K. K. (2023, June). *On the reliability of remote and in-person administered performance validity measures* [Poster Presentation]. Canadian Psychological Association 84th Annual Convention, Toronto, ON, Canada.

Mascarenhas, M., Brown, T., Campbell, A., Inzlicht, M., Zakzanis, K. K. (2023, June). *Performance validity test failure in a non-clinical context: Do people who find effort meaningful do better on objective measures of effort?* [Poster Presentation]. Canadian Psychological Association 84th Annual Convention, Toronto, ON, Canada.

Cane, C., Lee, A. C. H., & Ruocco, A. C. (June 2023). *An exploratory study of functional brain activation underlying cognitive control in major depressive disorder and borderline personality disorder* [Poster Presentation]. Canadian Psychological Association's 84th Annual National Convention, Toronto, ON, Canada.

D'Arcey, J.N. (2023, June 23-25). *Co-Design in Digital Mental Health: Empowering or Performative* [Oral Presentation]. Canadian Psychological Association 84th Annual Convention, Toronto, ON, Canada.

D'Arcey, J.N., Romanowska, S., Leibovitz, T., Jagtap, S., Onno, K., Best, M.W. (2022, November) *The Feasibility of Digitally Delivered Cognitive Behavioural Therapy for Psychosis: A Systematic Review* [Poster Presentation]. Annual Association for Behavioural and Cognitive Therapies, New York City, United States of America.

Patel, A., Jain, E., Corman, M., Cunningham, J., de Oliveira, C., George, T., Le Foll, B., Carroll, K., Quilty, L.C. (2023). *Computer-based training for cognitive behavioural therapy (CBT4CBT): Improvement in positive indicators of health* [Conference Presentation]. CACBT, Halifax, NS, Canada.

Jagtap, S., & Zahid, A. (2023, July). *Cultural Adaptation of Cognitive Behavioural Therapy for Psychosis: Implications for Clinicians and Researchers* [Oral Presentation]. Clinical Research Evaluation Cluster Annual Research Day.

Student Highlights:

Posters/Abstracts/Presentations

2023 YEAR-IN-REVIEW | P.23

Jagtap, S., Zahid, A., Dere, J., Gerritsen, C., & Best, M.W. (2023, May). *Culturally Adapted Cognitive Behavioural Therapy for Psychosis (CaCBTp): A Review of Key Features of Cultural Adaptation* [Poster Presentation]. Canadian Association of Cognitive and Behavioural Therapies 2023 Hybrid Conference, Halifax, NS, Canada.

Gerritsen, C., Kitt, T., Kim, D., **Jagtap, S.**, Simpson, S. (2023, May). *Criminogenic Thinking in Schizophrenia: A Meta-Analysis of Current Measures, Qualitative Study and Development of a New Tool*. Talk presented at the Canadian Academy of Psychiatry and the Law Conference, Halifax, NS, Canada.

Jagtap, S. & Best, M.W. (2023, May). *Examining the influence of the self-referential bias on aberrant salience and the jumping to conclusions in individuals with schizophrenia-spectrum disorders* [Poster Presentation]. The Schizophrenia International Research Society 2023 International Congress, Toronto, ON, Canada.

Junaid, S., Mutschler, C., McShane, K. (2023, June). The Impact of Covid-19 on Clubhouse Employment Programs [Conference Presentation] Canadian Psychological Association Conference, Canada.

Junaid, S., D'Arcey, J., Kidd, S. (2023, June). *Current digital health technologies for treating Opioid Use Disorder* [Conference Presentation]. Canadian Psychological Association Conference, Canada.

Junaid, S., D'Arcey, J., Tackaberry, L., Kidd, S. (June 2023). *Current digital health technologies for treating Opioid Use Disorder* [Conference Presentation]. 22nd E-Health Conference, Canada.

Tackaberry-Giddens, L., Kassam, I., Sequeira, L., **Junaid, S., McIntyre, C., D'Arcey, J., Asuncion, T., Kidd, S.** (2023, Feb). *Educating Individuals with Schizophrenia Spectrum Disorders and Clinicians on the Use of a Digital Health Platform* [Poster Presentation]. Donald Wasylenki Education Day Conference, Toronto, ON, Canada.

Koudys, J. W., Carcone, D, Gardhouse, K., & Ruocco, A. C. (2023). Neuropsychological functioning in depression, borderline personality disorder, and suicidality [Poster Presentation]. International Neuropsychological Association 51st Annual North American Meeting, San Diego, CA.

Allen, T. A, **Koudys, J. W.**, Brown, V. M., Hallquist, M. N., & Dombrovski, A. Y. (2023). *Antagonism facets uniquely affect cooperation: Narcissism and callousness are differentially associated with tit-for-tat reciprocity* [Poster Presentation]. 2023 Society of Biological Psychiatry Annual Meeting, San Diego, CA.

Lipsitz, O., Koudys, J. W., & Ruocco, A. C. (2023). *Executive function contributors to functional disability: A dimensional approach to borderline personality disorder* [Poster contribution]. North American Society for the Study of Personality Disorders 2023 Annual Conference, Waltham, MA, United States.

Carnovale, M., **Koudys, J. W.**, Cane, C. J., Traynor, J. M., & Ruocco, A. C. (2023). *Personality psychopathology and executive functions: General and specific associations* [Poster contribution]. North American Society for the Study of Personality Disorders 2023 Annual Conference, Waltham, MA, United States.

Koudys, J. W., Carcone, D, Gardhouse, K., & Ruocco, A. C. (2023). Global neuropsychological functioning explains more variance in suicidal ideation risk factors than symptoms of depression and borderline personality disorder [Poster presentation]. Canadian Psychological Association 84th Annual National Convention, Toronto, ON.

Koudys, J. W., Wurgaft, D., Karvelis, P., Ruocco, A. C.* & Diaconescu, A. O.* (2023). *Variable performance in probabilistic learning among PID-5 domains: Using reinforcement learning and hierarchical gaussian filter models to understand choice behavior*. In J. W. Koudys (Chair), *Advancing the cognitive phenotypes of personality pathology using computational decision-making paradigms* [Symposium]. North American Society for the Study of Personality Disorders 2023 Annual Conference, Waltham, MA.

Lipsitz, O., Koudys, J. W., & Ruocco, A.C. (2023). *Using neuropsychology to explain variance in domains of functional disability in borderline personality disorder: A family study* [Poster contribution]. Society of Biological Psychiatry Annual Meeting, San Diego, CA, United States.

Lipsitz, O., Koudys, J. W., & Ruocco, A.C. (2023, April). *Executive function contributors to functional disability: A dimensional approach to borderline personality disorder* [Poster Presentation]. North American Society for the Study of Personality Disorders, Boston, MA, United States.

Mascarenhas, M., Brown, T., Campbell, A., Inzlicht, M., & Zakzanis, K. (2023, June). *Performance Validity Test failure in a non-clinical context: Do people who find effort meaningful do better on objective measures of effort?* [Oral presentation]. Canadian Psychological Association 85th Annual Conference.

Brown, T., Mascarenhas, M., & Zakzanis, K. (2023, June). *Is Remote Neuropsychological Assessment a reasonable alternative to conventional in-person assessment?* [Poster Presentation] Canadian Psychological Association 85th Annual Conference.

Mascarenhas, M., Segal, Z., & Zakzanis, K. (2023, June) *Dispositional Mindfulness: A novel protective factor for outcomes following Mild Traumatic Brain Injury* [Oral presentation]. The Canadian Society of Medical Evaluators Medical Legal Summit.

Joshi, A., **Mascarenhas, M., Zakzanis, K.** (2023, April). The role of effort in tackling the replication crisis [Poster Presentation]. University of Toronto Undergraduate Symposium, Toronto, ON, Canada.

Oliogu, E., Dhillon, S., Zazanis, K. (23, June 23–25). *The Cognitive Impairment Bias Scale (CIBS): A Confirmatory Factor Analysis* [Conference presentation]. CPA 2023 Conference, Toronto, ON, Canada.

Student Highlights:

Posters/Abstracts/Presentations

- Oliogu, E.,** Leckie, A. (23, November 9–11). *Navigating Academia: A Critical Look at the Imani Black Academic Mentorship Program* [Conference presentation]. Decolonizing Conference, Toronto, ON, Canada.
- Oliogu, E.** (23, May 15) *Navigating Academia: A Critical Look at the Imani Black Academic Mentorship Program* [Conference Presentation]. Black Graduate Students Association 2023 Conference, Toronto, ON, Canada
- Patel, A.,** Daros, A. R., Irwin, S. H., Lau, P., Hope, I. M., Perkovic, S. J. M., Laposa, J. M., Husain, M. I., Levitan, R. D., Kloiber, S., & Quilty, L. C. (2023, June). *Associations Between Rumination, Depression, and Distress Tolerance During CBT Treatment for Depression in a Tertiary Care Setting* [Oral Presentation]. Canadian Psychological Association's 84th Annual National Convention, Toronto, Canada.
- Patel, A.,** Calahong, B., Dhawan, M., Leynes, L. P., Daros, A., Saab, B. J., & Quilty, L. C. (2023, June). *Effects of a Mindfulness App for Outpatients Waitlisted for Psychological Interventions* [Poster Presentation]. Society for Digital Mental Health Annual Meeting, Virtual Conference.
- Downie, D., Patel, A.,** Jain, E., Corman, M., Cunningham, J., de Oliveira, C., George, T., Le Foll, B., Carroll, K., Quilty, L.C. (2023, July). *Computer-Based Training for Cognitive Behavioural Therapy (CBT4CBT): Improvement in Positive Indicators of Health* [Oral Presentation]. University of Toronto Faculty of Medicine Research Day, Toronto, Canada.
- Quesnel, D. A.,** (2023, August). If the shoe fits; Exercise and eating disorder [Conference Presentation]. Exercise in Clinical Populations Conference (PECP), Stratford, Manchester, United Kingdom.
- Marashi, M., **Quesnel, D. A.,** Sabiston, C. (2023, June). *Self-compassion moderates the relationship between self-oriented perfectionism and disordered eating in a sample of health and exercise professionals* [Oral Presentation]. North American Society for the Psychology of Sport and Physical Activity Conference, Toronto, Canada.
- Solomon-Krakus, S., **Quesnel, D. A.,** Uliaszek, M., Sabiston, C. (2023, June). *The relationships between body-related emotion intolerance and restrictive eating as a function of multidimensional perfectionism* [Oral Presentation]. Canadian Psychological Association Conference, Toronto, Canada.
- Pumphrey, J.D. **Ramani, S.,** Berard, J.A., Wang, J., Walker, L.A.S. (2023, June). Preliminary Analysis of Social Cognition in People with Multiple Sclerosis and Co-Morbid Diabetes [Conference Presentation]. Canadian Psychological Association Conference, Toronto, Canada.
- Ramani, S.,** Pumphrey, J.D. Berard, J.A., Wang, J., Walker, L.A.S. (2023, June). *An interim analysis of social cognition and information processing speed in individuals with multiple sclerosis and co-morbid diabetes* [Conference Presentation]. Canadian Psychological Association Conference, Toronto, Canada.
- Ramani, S.,** Pumphrey, J.D., Berard, J.A., Wang, J., Walker, L.A.S. (2023, June). *Information processing speed and social cognition in individuals with multiple sclerosis and co-morbid diabetes: A preliminary analysis* [Conference Presentation]. Consortium of Multiple Sclerosis Centers, Aurora, CO, United States of America.
- Ramani, S.,** Pumphrey, J.D. Berard, J.A., Wang, J., Walker, L.A.S. (2023, February). *Social Cognition and Information Processing Speed in Individuals with Multiple Sclerosis and Co-Morbid Diabetes: An Interim Analysis* [Conference Presentation]. International Neuropsychology Society Conference, San Diego, CA, United States of America.
- Brudner, R., **Romanowska, S.,** Milanovic, M., Doell, F., Best, M. W., Kidd, S., & Grossman, M. (2023, May). *Consequences of COVID-19 in Schizophrenia Spectrum Conditions: Examining Associations with Pandemic-Related Stress and Clinical and Functional Status* [Poster Presentation]. Schizophrenia Research Congress, Toronto, Canada.
- Saperia, S.,** Plahouras, J., Zakzanis, K.K., Foussias, G. (2023). *A systematic and meta-analytic review of the cognitive model of negative symptoms in schizophrenia-spectrum disorders* [Presentation]. Society for Research in Psychopathology (SRP), St. Louis, MO, USA.
- Saperia, S.,** Plahouras, J., Zakzanis, K.K., Foussias, G. (2023). *Cognitive model of negative symptoms: meta-analytic review.* [Presentation]. at the Congress of Schizophrenia International Research Society (SIRS), Toronto, ON, Canada.
- Burhunduli, P., **Vandello, K.L.,** Ghanayem, L., Blier, O., & Phillips, J.L. (2023, April 27-29). Relationship between hippocampal CA1 subfield volume and childhood trauma in depression with suicidal ideation [Poster Presentation]. 78th Annual Meeting of the Society of Biological Psychiatry, San Diego, CA, USA and the 34th International College of Neuropsychopharmacology (CINP) World Congress, Montreal, QC.
- Lau, S. C. L., **Zahid, A.,** & Bagby, R. M. (2023, August). *An evaluation of the diagnostic criteria for the six AMPD personality disorders* [Poster Presentation]. American Psychological Association 2023 Convention, Washington, DC, United States of America.
- Jagtap, S., & Zahid, A.** (2023, July). *Cultural adaptations for CBT for psychosis: Implications for clinicians and researchers* [Oral Presentation] Clinical Research & Evaluation Cluster Research Day, Scarborough, Ontario, Canada.

Student Highlights:
