# Chair's Message

Dear GD-PCS Community,

2020 marked another momentous year for the Graduate Department of Psychological Clinical Science (GD-PCS). This year we had our first University of Toronto Quality Assurance Process (UTQAP) alongside the Applied Psychology and Human Development Department, OISE, with our program being deemed “impressive”. We saw our first six students successfully completing their full year clinical internships at leading sites in Canada. We saw our four PhD students convocate (albeit remotely) in November – yes, we officially have alumni! Faculty continued to take leading roles in research and their professional organizations. Congratulations to our program and to those individuals! Read about our accomplishments throughout the newsletter.

In March, we saw the University move to online teaching and more limited in-person research with COVID-19. This fundamentally changed the nature of our clinical training program as we shifted to online teaching, online research, and both virtual and in-person clinical practica. Together we are navigating the challenges, and making the most of the opportunities to learn best practices in tele-health and tele-education. A tremendous thank you to our entire community for helping the program weather this ongoing pandemic. I appreciate your efforts and commitment to each other and our program.

I would like to thank our dedicated team in the Graduate Office for their exceptional service as we have all seen our workloads increase: Amanda Uliaszek, Program Coordinator; Hanan Domloge, Program Manager; and new but already making an impact, Brittany Tierney, Graduate Coordinator. Please do not hesitate to reach out to us.

I wish all of you a restful and rejuvenating holiday break. I look forward to seeing what 2021 will bring and continuing to work with this dedicated professional training community.

Warmly yours,

Vina Goghari, Professor & Graduate Chair  
Graduate Department of Psychological Clinical Science

# Faculty News

## **PROFESSOR R. MICHAEL BAGBY**

### **Receives Bruno Klopfer Award from the Society of Personality Assessment**

Professor Bagby was recognized by the *Society of Personality Assessment* [SPA] with the Bruno Klopfer Award for his outstanding, long-term professional contribution to the field of personality assessment. Professor Bagby will deliver an acceptance presentation at the SPA annual meeting in March 2021.

### **Appointed to Editorial Board for a number of scholarly journals in Clinical Psychology**

Professor Bagby was re-appointed as Associate Editor to *Psychological Assessment* and Consulting Editor to the *Journal of Personality Disorders*. He was also newly appointed as Consulting Editor to *Personality Disorders: Theory, Research and Treatment*.

## **PROFESSOR MICHAEL BEST**

### **Awarded through Clusters of Scholarly Prominence Program**

Professor Best was awarded \$600,000 from UTSC's new flagship 'Clusters of Scholarly Prominence Program' (CSPP). CSPP promotes inter-disciplinary and collaborative clusters of scholarship that demonstrates impactful, innovative, and transformative research potential. Professor Best's 'Clinical Research

and Evaluation Cluster' will comprise of 10 affiliated faculty across the Departments of Psychology, Health and Society, and Computer and Mathematical Sciences at UTSC. The cluster will use an interdisciplinary approach to evaluate psychological treatments for mental disorders with the goal of improving mental health treatments.

## **PROFESSOR JESSICA DERE**

### **Delivers webinars for instructor well-being during COVID-19**

Professor Dere was invited to deliver a presentation for UTSC instructors as part of the Centre for Teaching and Learning (CTL) 'This worked for me' webinar series. Professor Dere's talk, titled 'Instructor well-being and self-care in challenging times,' provided resources and practices to support faculty's well-being while transitioning to remote instruction caused by COVID-19.

## **PROFESSOR VINA GOGHARI**

### **Appointed Associate Editor of Clinical Psychological Science, January 2021**

Professor Goghari was appointed Associate Editor of *Clinical Psychological Science* for a 4-year term beginning in January 2021. *Clinical Psychological Science* is a prominent journal in the field of Clinical Psychology, published by the Association for Psychological Science. Professor Goghari holds the distinction as the only Canadian member to sit on the journal's Editorial Board.

# Faculty News (cont'd)

## Canadian Psychology journal initiatives by Editor

In her second year as Editor of *Canadian Psychology*, Professor Goghari published the first special issue in a Canadian journal on the Replication crisis: <http://dx.doi.org/10.1037/cap.0000252>. As well, Professor Goghari published one of the first Canadian papers to explore the impact of COVID-19 on professional training in association with the leaders of three of the main training partners in Canada: the Canadian Council of Professional Psychology Programs (CCPPP), the Accreditation Panel of the Canadian Psychological Association (CPA), and the Association of Canadian Psychology Regulatory Organisations (ACPRO): <http://dx.doi.org/10.1037/cap0000250>.

## PROFESSOR ANTHONY RUOCCO

### Receives new research grant to study neurobiology of suicide

Professor Ruocco was the recipient of the 2020 Standard Research Grant (\$100,000 USD) from the American Foundation for Suicide Prevention. The grant, titled 'A Neurocomputational Approach to Discriminate Between Suicide Ideators and Attempters,' aims to develop a risk algorithm for suicide attempt that combines information across clinical, behavioural, and brain-based risk factors. The

research has promise to develop a 'risk calculator' that could be used in the future to inform intervention plans for at-risk patients.

## PROFESSOR ZINDEL SEGAL

### Delivers address at the Association for Behavioral and Cognitive Therapies 2020 Convention

Professor Segal was invited to deliver an address at the *Association for Behavioral and Cognitive Therapies* [ABCT] 2020 Annual Convention. ABCT is a multidisciplinary organization committed to enhancing the impact of behavioural and cognitive therapies. Professor Segal's address, titled 'Strange Bedfellows Share Mutual Dreams: Increasing Access to Mindfulness Based Interventions for Mood and Anxiety Disorders,' explored the efficacy of digital versus face-to-face treatment and considerations for growing the reach of online digital interventions.

## PROFESSOR KONSTANTINE ZAKZANIS

### Appointed President of the Canadian Society of Medical Evaluators

Professor Zakzanis has been appointed to serve a 2-year term as President of the *Canadian Society of Medical Evaluators* [CSME]. CSME is a leading national organization of professionals involved in independent medicolegal and clinicolegal valuations using evidence-based medicine and best clinical practices. Professor Zakzanis has been an active member of CSME's Board of Directors since 2014, and will work in his new role as President to further advance CSME's mandate in advancing the standards and training for Canadian medical professionals.

# Clinical Psychology receives 'impressive' review from the University of Toronto's Quality Assurance Process

In March 2020, the Clinical Psychology field, offered by GD-PCS, underwent its first unit review under the *University of Toronto Quality Assurance Process* (UTQAP). The program was reviewed as part of the Counselling and Clinical Psychology degree program formally housed within the Applied Psychology and Human Development (APHD) Department of the Ontario Institute of Studies in Education (OISE).

From its first review, the Clinical Psychology program was overall viewed favourably by the UTQAP and its three site visitors. The program was particularly noted for its commitment to the professional development of its students, research space, eagerness for feedback and implementation of feedback, and curriculum mapping. As well, the report commented on the success of students in national competitions for fellowships, noting the high success rates in receiving Tri-Agency scholarships in comparison to other programs across Canada. The UTQAP also shared that though the Clinical Psychology program is new, it has already 'developed into an impressive clinical training program.'

Vina Goghari, Professor & Graduate Chair, expressed gratitude for the ongoing commitment and dedication of its faculty, graduate students, and staff for the program's favourable review, as well as the UTSC's campus support. As Goghari states, "We were grateful to work with OISE on this successful unit review, and grateful for the time, energy, and insights from our site reviewers. The GD-PCS community appreciates the positive assessment, which reflects all of our hard work, persistence and dedication. We look forward to embracing future opportunities."

Operated out of the Office of the Vice-Provost, Academic Programs, the UTQAP ensures U of T adheres to the Quality Assurance Framework set by the Province of Ontario, which conducts cyclical audits of Ontario universities ensuring their compliance with the provisions of its Institutional Quality Assurance Process. Under this audit, U of T assesses the quality of the scholarship and research in meeting the achievement of Degree-Level expectations. This criteria is then used as indicators for academic excellence and how U of T compares to its international peer institutions.

The UTQAP did make suggestions for areas for the program to grow including its relationship with OISE and community partnerships. The Clinical Psychology program will next have a formal review and site visit in 2022-2023 by the Canadian Psychological Association (CPA) during its re-accreditation process.

# Graduate Students

## MASTERS

**Sabrina Adamo, MA1**

Supervisors: Melanie Cohn & Anthony Ruocco  
Research: *Parkinson's Disease, visual hallucinations, mild cognitive impairment*

**Cody Cane, MA1**

Supervisors: Andy Lee & Anthony Ruocco  
Research: *neuroimaging, personality disorders, disinhibition*

**Shreya Jagtap, MA1**

Supervisor: Michael Best  
Research: *psychosis, delusions, cognitive biases, positive symptoms*

**Willem Le Duc, MA2**

Supervisors: Andy Lee & Anthony Ruocco  
Research: *approach-avoidance conflict, hippocampus, lesions, memory, decision-making*

**Talia Leibovitz, MA1**

Supervisor: Michael Best  
Research: *psychosis, cognitive behavioural therapy, accessibility to treatment*

**Sylvia Romanowska, MA2**

Supervisor: Michael Best  
Research: *psychosis, neurocognition, intervention*

**Zoey Zuo, MA2**

Supervisors: Zindel Segal & Norman Farb  
Research: *cognitive & contemplative neuroscience*

## DOCTORATE

**Robert Aidelbaum, PhD1**

Supervisor: Vina Goghari  
Research: *mood disorders, psychotic spectrum disorders, executive functions, affective cognition, neurocognition*

**Courtney Berezuk, PhD4**

Supervisors: Konstantine Zakzanis & Sandra Black  
Research: *magnetic resonance imaging (MRI), dementia populations*

**Dean Carcone, PhD5**

Supervisors: Anthony Ruocco & Andy Lee  
Research: *cumulative stress, episodic memory, hippocampus, neuroimaging, and personality disorder*

**Michael Carnovale, PhD1**

Supervisors: Erika Carlson & Vina Goghari  
Research: *diagnostics/assessment, psychopathology, interpersonal perception, personality*

**Ivy Cho, PhD2**

Supervisor: Vina Goghari  
Research: *cognitive control, healthy aging, mood disorders*

**Nicole Cosentino, PhD2**

Supervisors: Amanda Uliaszek & Marc Fournier  
Research: *interpersonal perception, authenticity, self-coherence, self-knowledge*

**Sonja Chu, PhD2**

Supervisors: Vina Goghari & Andy Lee  
Research: *fMRI, Approach-avoidance conflict, anxiety*

**Philip Desormeau, PhD5**

Supervisors: Zindel Segal & Norman Farb  
Research: *emotion regulation, regulatory beliefs, psychological symptoms*

# Graduate Students (cont'd)

**Sonya Dhillon, PhD4**

Supervisor: Konstantine Zakzanis  
Research: *neuropsychiatry, neuropsychology, functional impairment, test development, psychometrics*

**Le-Anh Dinh-Williams, PhD5**

Supervisors: Zindel Segal & Norman Farb  
Research: *reward processes, functional magnetic resonance imaging (fMRI)*

**Amanda Ferguson, PhD4**

Supervisors: Michael Inzlicht & Zindel Segal  
Research: *mindfulness, mindfulness- and acceptance-based therapies*

**Tara Gralnick, PhD6**

Supervisor: Amanda Uliaszek  
Research: *therapeutic assessment, personality change, self-compassion, self-insight, randomized control trial*

**Tahira Gulamani, PhD2**

Supervisors: Anthony Ruocco & Amanda Uliaszek  
Research: *psychopathology, impulsivity, emotion dysregulation, personality*

**Kevin Hamdullahpur, PhD3**

Supervisor: Amanda Uliaszek  
Research: *borderline personality disorder, emotion dysregulation, cannabis use*

**Laura Heath, PhD3**

Supervisors: Robin Green & Amanda Uliaszek  
Research: *traumatic brain injury, neuropsychology, recovery, risk factors, predictors*

**Jacob Koudys, PhD2**

Supervisor: Anthony Ruocco  
Research: *suicide, transdiagnostic psychopathology, decision making, impulsivity*

**Daniel Krzyzanowski, PhD1**

Supervisors: Vina Goghari & Gary Remington  
Research: *schizophrenia, values, subjective well-being, happiness, lifespan development*

**Matthew McPhee, PhD4**

Supervisors: Michael Bagby & Christian Hendershot  
Research: *alcohol use, craving, response inhibition, interoception*

**Alina Patel, PhD1**

Supervisors: Lena Quilty & Zindel Segal  
Research: *psychopathology, rumination, worry, personality, suicide*

**Matthew Quitasol, PhD5**

Supervisors: Amanda Uliaszek & Marc Fournier  
Research: *associations between narcissism and blind spots in self-knowledge*

**Achala Rodrigo, PhD6**

Supervisor: Anthony Ruocco  
Research: *neuropsychological assessment, neuroimaging, functional near-infrared spectroscopy (fNIRS)*

**Sarah Saperia, PhD1**

Supervisors: Konstantine Zakzanis & George Foussias  
Research: *schizophrenia-spectrum disorders; negative symptoms; motivation deficits; treatment targets*

**Angela Sekely, PhD3**

Supervisor: Konstantine Zakzanis  
Research: *neuropsychology, psychometrics, traumatic brain injury, brain tumour*

**Shauna Solomon-Krakus, PhD3**

Supervisors: Catherine Sabiston & Amanda Uliaszek  
Research: *eating disorders, body image, self-conscious emotions, perfectionism*

**Thulasi Thiruchselvam, PhD3**

Supervisors: Lena Quilty & Michael Bagby  
Research: *depression, concurrent cannabis use, reward, stress*

**Kathleen Walsh, PhD4**

Supervisors: Zindel Segal & Norman Farb  
Research: *how to directly train psychological distancing as a way to improve well-being*

# CLASS OF 2020

## MASTER OF ARTS

**Robert Aidelbaum**

Thesis: *A Multi-Facet Investigation of Impulsivity and Social Cognition in Bipolar Disorder*

**Michael Carnovale**

Thesis: *Prediction of Overall and Differential Treatment Response for Depression using Personality Facets: Evaluating Multivariable Prediction Models using Multi-Study Data\**

\*Masters thesis awarded the Certificate of Academic Excellence by the *Canadian Psychological Association*

**Daniel Krzyzanowski**

Thesis: *Cognitive Discrepancies, Values and Subjective Well-Being in People with Schizophrenia\**

\*Masters thesis awarded the Certificate of Academic Excellence by the *Canadian Psychological Association*

**Alina Patel**

Thesis: *Understanding the Links Between Personality and Depression: The Impact of Life Stress Depression*

**Sarah Saperia**

Thesis: *Modelling Effort-Based Decision-Making: A Dimensional Approach to Understanding Motivation Deficits in Schizophrenia and Major Depressive Disorder*

## DOCTOR OF PHILOSOPHY

2020 marks a milestone in the seven-year history of the Clinical Psychology program at UTSC, as the Department graduates its first class of PhD students. As Vina Goghari, Professor & Graduate Chair, exclaimed earlier this year in UTSC's *[Introducing our first PhD grads in Clinical Psychology!](#)* article, "It's a celebration for us, a celebration for the campus, a celebration for the community." Please join us in congratulating Psychological Clinical Science's first graduating doctoral class!

**Nadia Al-Dajani**

Thesis: *An Integrated View of Suicidal Ideation: A Look at Individual Difference Vulnerabilities and Day-to-Day Risk Factors of Suicidal Thoughts\**

\*Doctoral thesis awarded the Certificate of Academic Excellence by the *Canadian Psychological Association*

**Post-graduation:** Nadia is currently completing a one-year postdoctoral research fellowship at University of Michigan, Michigan Medicine. She is extending her dissertation research and focusing on short-term risk factors of day-to-day suicidal thoughts and behaviours. She ultimately hopes that her research will inform future prevention and intervention efforts.

**Allison Eades**

Thesis: *The Unique and Cumulative Predictive Capacity of Validity Measures to Detect Feigned Psychological, Cognitive, and Medical Conditions: An Analogue Investigation\**

\*Doctorate thesis awarded the Certificate of Academic Excellence by the Canadian Psychological Association

**Post-graduation:** Allison accepted a psychologist position at a private practice in Ottawa, ON. In this role, she is preparing to declare clinical competencies with the College of Psychologists of Ontario in Clinical Neuropsychology, Clinical Psychology, and Rehabilitation for adult and senior populations. Outside of her clinical work, she has been applying the analyses from her dissertation to an updated dataset, for what will be one of the first manuscripts to explore and report on the psychometric properties of the validity scales from the newly released MMPI-3.

**Katherine Gardhouse**

Thesis: *Stressed, Sick, and Sad: A Transdiagnostic Investigation of the Translation of Stress into Depression through Neuroendocrine Disruptions*

**Post-graduation:** Katherine's doctoral research focused on the interaction of stress, immune activity, and gut-brain communication in relation to symptoms of depression and cognitive deficits. She completed her pre-doctoral residency at CAMH with a focus on emotion regulation and trauma. Katherine is currently working as a psychologist at the Centre for MindBody Health where she works collaboratively with clients in a secure and non-judgmental environment to promote well-being, health, and meaning in life.

**Gregory Williams**

Thesis: *Evaluating the construct of emotion differentiation: Methodological considerations and extension of current theory*

**Post-graduation:** Greg completed his residency in Halifax, NS and then accepted a psychologist position at an outpatient community mental health clinic in rural Nova Scotia. He and his partner purchased a lovely home on the ocean at a very affordable price.

## RECENT SUCCESSFUL DOCTORAL FINAL ORAL EXAMINATIONS

**Kyrsten Grimes**

Thesis: *Refining and Expanding a Cognitive Model of Positive Symptoms in Schizophrenia*

**Post-graduation:** Kyrsten accepted a permanent position in the Provincial Forensic Program at Waypoint Centre for Mental Health Care, the only high secure forensic psychiatric program in Ontario. She is the sole full-time Psychologist (Supervised Practice) on their Forensic Assessment Unit. She is also involved in increasing patient access to psychotherapy on rehabilitation units. Kyrsten will be continuing to advance her research on the efficacy of psychosocial interventions for psychosis in forensic psychiatric settings.

Kyrsten will confer her PhD in Spring 2021.

# Internship

As part of the graduate program, PhD students complete a pre-doctoral clinical internship in the final year of study. The internship marks a turning point for students, who after 5+ years of rigorous clinical training take part in a year-long, full-time placement and gain firsthand professional experience to prepare them for careers as Clinical Psychologists. 2020 sets another program milestone, with the program's first group of students successfully completing internship - even COVID-19 could not slow them down! We wish the current students on internship the best of luck as they finish their placement and thank them for their service to the community.

## 2019-2020

Student	Site
Nadia Al-Dajani	St. Joseph's Healthcare - Clinical Psychology Residency Program, <i>Hamilton, ON</i>
Allison Eades	London Clinical Psychology Residency Consortium - Adult Mental Health Track, <i>London, ON</i>
Katherine Gardhouse	Centre for Addiction and Mental Health - Borderline Personality Disorder Clinic, <i>Toronto, ON</i>
Kyrsten Grimes	St. Joseph's Healthcare - Clinical Psychology Residency Program, <i>Hamilton, ON</i>
Achala Rodrigo	Psychology Department at London Health Sciences Centre, <i>London, ON</i>
Gregory Williams	Halifax Clinical Psychology Residency Program, <i>Dartmouth, NS</i>

## 2020-2021

Matthew Quitasol	Centre for Addiction and Mental Health - Clinical Research and Health and Wellness Program, <i>Toronto, ON</i>

# Finding time for hobbies during COVID-19: Tales from Students

Amid the changes to everyday life caused by the coronavirus outbreak, the slowdown and call to remain at home has left many people with extra time to invest in old and newfound hobbies. We asked our graduate students how they've been spending their time during the pandemic, and what they've done to maintain their well-being while socially distancing.

*Getting out of the city to explore Ontario on weekends has been very helpful to manage being cooped up inside during the work-week – our last trip was to Bruce Peninsula National Park!*  
- Sylvia Romanowska, MA2

*To stay in touch with friends and continue our weekly tradition of board gaming, I've switched to virtual platforms and invested in some creative camera use over Zoom.*  
- Jacob Koudys, PhD2

*I had always enjoyed cooking, but since COVID I've been cooking more than ever. I learned to make a lot of new things and became better at cooking and baking in general.*  
- Zoey Zuo, MA2

*Camping! In the summer, I am usually busy with a variety of activities, and will camp 2-3 times in the year. Now, since camping has been one of the more COVID-safe activities, I went on 6-7 trips this summer and fall, including several portage trips in Algonquin and kayak camping in Philip Edward Islands. For the winter, I am planning to keep up the outdoor activities by going skating in a park near my house, as well as taking trips out of the city to go cross-country skiing.*  
- Laura Heath, PhD3

*Since COVID started I have been trying to keep active and healthy. I've been cooking more interesting and healthy meals, I've been try new exercise regiments in place of the gym being closed and I've been reading more for leisure to pass the time.*  
- Cody Cane, MA1

# Finding time for hobbies during COVID-19 (cont'd)

*To improve well-being during COVID-19, I have set up a home gym and have scheduled weekly FaceTime sessions with my best friend. The home fitness routine helps promote good physical and mental health, while the weekly FaceTime calls really help with feelings of isolation.*

- Alina Patel, PhD1

*At the beginning of the pandemic, my rock climbing gym closed. Therefore, I started a new fitness routine that involves only about 20-25 minutes of working out every day at home. I have remained much more consistent and experienced a lot more gains than I did pre-pandemic (I can do pushups now!). My husband and I also spent a lot of time going on hikes with our dog, back country camping in Algonquin park, and learning how to oil paint.*

- Kathleen Walsh, PhD4

*Over the shutdown, I've found it very beneficial to go on long walks with my dog, and use the time to pause and reflect. I've also re-ignited my hobbies of cooking and baking; most of all, I enjoy sharing the food I make!*

- Matthew McPhee, PhD4

*In the summer I had a chance to go on walks surrounded by some breathtaking views once I moved out west. I have yet to find any winter replacement for this activity!*

- Tara Gralnick, PhD6

*I've always been a big fan of cycling and running, but have come to enjoy them all the more as a means of getting outside in a safe way. Otherwise, I've been taking advantage of platforms like Zoom to connect with my friends for virtual hangouts, board game nights and gaming.*

- Willem Le Duc, MA2

# New 2020 Funding Awarded
