ⓘ "Deception, Deceit, and Dishonesty: The Anthropology of Things that are Not as They Seem" (Instructor: A. Sorge)

This course examines the oft-noted distinction in social life between appearance and reality, and between the way people ought to behave with the way they really do. Deception, deceit, lying, fraud, fakery, concealment, hypocrisy, and corruption: "Truth" has many inversions, all of them speaking to the complexity of human behaviour as we go about creating and sustaining the fictions of day-to-day life. Via a comparative exploration of ethnographic case studies, this course assesses the insights that Anthropology has offered into the dynamics of rule-bending, duplicity, and trickery – objects of frequent disapprobation that manifest in countless ways across space and time. The course begins with an overview of some foundational perspectives on human behaviour, onto which we shine the light of ethnographic evidence on the way to coming to terms with the methodological implications of our propensity to rule breaking, especially as it relates to the distinction between theory and practice in social life and thus to the paradoxes and contradictions of culture. We conclude with a reflection on the proliferation in our contemporary political landscape of various forms of deception that offend normative conceptions of "truth," and seek to shed some light on recent debates about our "post-truth" culture that is marked by frequent talk of "fake news" and "alternative facts."

46. [BIOB32H3S](#) (2022 Winter) - Animal Physiology Laboratory

Enrolment Control: P

Period 1: Initially restricted to students in the Human Biology Specialist and Major Programs, Integrative Biology Specialists, and the Molecular Biology, Immunology and Disease Major Program.

Period 2: Shortly after **11:00 am on Thursday, July 15th** if there is no waitlist, any remaining space may open to all UTSC students.

i P = Priority, R = Restricted, A = Approval, E = Enrolment on ACORN is disabled

i Please be assured that all students enrolled in a Lecture will be accommodated in a practical/tutorial. The number of practicals/tutorials currently open in some Fall/Winter courses do not accommodate all students presently enrolled in them. This is deliberate because enrolment patterns change between now and the start of the term. When the term starts, if necessary, we will open additional practicals/tutorials to accommodate the students enrolled in the course at that time.

The Supervised Study form is available at: <https://www.utoronto.ca/registrar/supervised-study-form>. Please visit: <https://www.utoronto.ca/biosci/undergraduate-research-opportunities> and see Fahda Kulmiye (SW421E) for additional paperwork requirements.

Step 3: Submit the signed Supervised Study form to the Office of the Registrar by the last day to add courses for the session. Staff will update your course status on ACORN from interim (INT) to approved (APP).

P = Priority, **R** = Restricted, **A** = Approval, **E** = Enrolment on ACORN is disabled

ⓘ All CHMB41H3 WINTER PRACTICALS WILL BE CLOSED AS OF **12:00 pm on Friday, January 14th.**

ALL Practicals occur the same week and alternate with the tutorial weeks. THERE ARE NO ODD AND EVEN WEEKS FOR THE PRACTICALS. Thus, labs will start week of Jan 17th (Tues and Fri of that week) for ALL students and tutorials will start week of Jan 24th (Thurs of that week) for ALL students and alternate in that order till the end of term. Both components are mandatory and students must register for both a practical section and a tutorial section.

Enrolment Control: P

Initially, CSC courses are open to all UTSC CSC program students, and all other UTSC students who require this course for their program. Students must also meet the course pre-requisite(s).

Starting shortly after **11:00 am on Tuesday, July 20th**, B-, C- and D-level CSC courses will be opened to all UTSC students who meet the pre-requisites. Students who do not require this course for their program must meet additional Cumulative GPA (CGPA) requirements:

* A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any B- level CSC course, with exception of CSCB20H3.

* A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any C- or D-level CSC course.

* When a B-, C-, or D-level CSC course approaches its capacity, CSC program students will be given preference for further enrollment over non-CSC program students.

Refer to the computer science section of the calendar for more information on admission to courses.

Enrolment Control: P

Initially, CSC courses are open to all UTSC CSC program students, and all other UTSC students who require this course for their program. Students must also meet the course pre-requisite(s).

Starting shortly after **11:00 am on Tuesday, July 20th**, B-, C- and D-level CSC courses will be opened to all UTSC students who meet the pre-requisites. Students who do not require this course for their program must meet additional Cumulative GPA (CGPA) requirements:

* A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any B- level CSC course, with exception of CSCB20H3.

* A student who is not in a CSC program and does not have a CGPA of at least 3.5 may not take any C- or D-level CSC course.

* When a B-, C-, or D-level CSC course approaches its capacity, CSC program students will be given preference for further enrollment over non-CSC program students.

Refer to the computer science section of the calendar for more information on admission to courses.

i P = Priority, R = Restricted, A = Approval, E = Enrolment on ACORN is disabled

i If tutorial sections exist, all students must enroll in a tutorial section. Students enrolled in the Lecture will be accommodated in a tutorial. When the term starts, if necessary, additional tutorials may be added to accommodate all students enrolled in the course. Keep checking ACORN. More information will be provided during the first class.

Step 1: "Request" the course in ACORN (you will receive an "INT" status, but will not be officially enrolled in the course) or join the Waitlist.

Do not let the waitlist status discourage you from applying for this course. We officially enroll students into this course upon acceptance of their application by the community placement supervisor, regardless of waitlist status. (see Step 3)

Step 2: Choose from a list of open community placements and apply to one.

Step 3: Wait for your application to be accepted. Only when a community placement supervisor has accepted a student's application, do we officially enroll the student into the course [APP status].

SUPERVISED STUDY/RESEARCH & INDEPENDENT STUDY COURSES

Step 1: Request the course on ACORN. Your status will be INT. You will not be officially enrolled until you complete the remaining steps (below).

Step 2: Contact the Supervisor and obtain their signature on a 'Supervised Study form'. Make sure the course code, supervisor name and title of the project is clearly printed on the form as this information will appear on your transcript. The Supervised Study form is available at: <https://www.utoronto.ca/registrar/supervised-study-form>. Your Department listed below may require additional paperwork. Students should contact the Office listed for more information.

Step 3: Meet with the course Instructor for review of your completed Supervised Study form.

Step 4: Submit the signed Supervised Study form and any additional paperwork by email to Rose Jones rosa.jones@utoronto.ca. Staff will update your course status on ACORN from interim (INT) to approved (APP).

214. [ENGCO3H3S](#) (2022 Winter) - Topics in Canadian Fiction

i Description: Haunted Canada. This course traces the gothic motifs of haunting, ghosts, and possession through close readings of a range of contemporary Canadian fiction. In this course, we will explore how these motifs are aligned with three seminal experiences that define the nation-state: a) the clash between Canada's indigenous population and the settler-invaders; b) the losses instigated by the impact of immigration, diasporas, and globalization; and c) the ongoing association between the uncanny, homosexuality and the female body. In New World literature, the association between the female body and the uncanny becomes even more significant due to fact that the female body often symbolizes the "virgin" land both feared and desired by the imperial and colonial invaders.

Restricted to students enrolled in the Major program in Human Geography who have already completed 13.0 FCEs including GGRB02H3. You will not be officially enrolled in the course until you receive approval. Please refer to the Supervised Study Instructions below.

SUPERVISED STUDY/RESEARCH & INDEPENDENT STUDY COURSES

Step 1: Request the course on ACORN. Your status will be INT. You will not be officially enrolled until you complete the remaining steps (below).

Step 2: Meet with the Supervisor and obtain their signature on a 'Supervised Study form'. Make sure the course code, supervisor name and title of the project is clearly printed on the form as this information will appear on your transcript. The Supervised Study form is available at: <https://www.utoronto.ca/registrar/supervised-study-form>. Your Department listed below may require additional paperwork. Students should contact the Office listed for more information.

Step 3: Submit the signed Supervised Study form by email to Marishka Pereira marishka.pereira@utoronto.ca. Staff will update your course status on ACORN from interim (INT) to approved (APP).

SUPERVISED STUDY/RESEARCH & INDEPENDENT STUDY COURSES

Step 1: Request the course on ACORN. Your status will be INT. You will not be officially enrolled until you complete the remaining steps (below).

Step 2: Secure a faculty member as a supervisor and obtain their signature on a 'Supervised Study form'. Ensure the course code, supervisor's name and title of the project is clearly printed on the form as this information will appear on your transcript. The Supervised Study form is available at: <https://www.utoronto.ca/registrar/supervised-study-form>.

Step 3: Submit the signed Supervised Study form by email to Sean Ramrattan sean.ramrattan@utoronto.ca one week prior to the last day to add courses for the session. Staff will ensure your course status on ACORN will be updated from **interim (INT) to approved (APP)**.

📌 Title: Introduction to Set-Theory.

Description: Just about every branch of mathematics makes use of the foundational area known as set theory. We will study the axioms of set theory; relations, functions, and orderings; the natural numbers; finite, countable, and uncountable sets; cardinal numbers and arithmetic; ordinal numbers; the axiom of choice.

427. [MATD44H3S](#) (2022 Winter) - Topics in Combinatorics

i Topics in Combinatorics: Probabilistic Graph Theory The Probabilistic Method is one of the most important techniques in modern combinatorics and theoretical computer science. We use probability in surprising and elegant ways to prove theorems which, on the surface, do not seem related to probability. For example, to prove that a graph with certain properties can be k -coloured, we design a method to try to k -colour the graph at random and show that the probability of success is positive. Or to prove the existence of graphs with certain properties, we choose a graph at random and show that the probability of satisfying those properties is positive. In this course, we will cover the basic tools in the probabilistic method including: the first moment method, the Lovasz Local Lemma, random graphs and useful concentration inequalities. Most of the focus will be on applications to graph theory.

Course enrolment in the following Music Performance course is by an interview. **An interview sign-up sheet will be sent to students closer to the beginning of an academic term.** To be considered follow the steps below:

- Request the course on ACORN. Your status will be 'INT'.
- Attend a placement interview – normally held during the week before and during the first week of classes. For more details please visit uoft.me/utscmusic and view the FAQ link.
- Decisions will be updated on ACORN beginning Tuesday, September 14th for the Fall Term and Monday, January 17th for the Winter term.

Check your status through ACORN to see whether you have been approved. (APP = approval; REF = refused; INT = no decision yet) If ACORN has not been updated contact the Instructor immediately.

SUPERVISED STUDY/RESEARCH & INDEPENDENT STUDY COURSES

In order to qualify for a Supervised Study course, students must locate a professor who will agree to supervise the course, and then follow the steps outlined below.

Step 1: Request the course on ACORN. Your status will be interim (INT).

You will not be officially enrolled until you complete the remaining steps.

Step 2: Fill the 'Student' section on a 'Supervised Study Form' available at: <https://www.utoronto.ca/registrar/supervised-study-form>.

Step 3: Once you fill-in the 'Student' section, contact your Supervisor and provide them with the form. Your supervisor will complete their section and forward the form for departmental approval.

Step 4: Once the project is approved at the departmental level, the form will be submitted to the Registrar's Office and your status on ACORN will be updated from interim (INT) to approved (APP).
